19TH YEAR. NO. 94.

EAST LIVERPOOL, O., MONDAY, APRIL 21, 1902.

TWO CENTS.

WARRANTS ARE BEING SERVED ON INDICTED SALOON MEN

Official Announcement of Alleged Offenders in East Liverpool.

COUNTS AGAINST GUTHRIE

Number Five and Charles Parker,
James Forrest and Others
Are on the List.

DEPUTY ALLISON'S SUCCESSOR

E. P. Speidel, a Hanoverton Teacher
And Lawyer, Will Perform the
Work Hitherto Entrusted to the
Man Who Has Been Indicted.

Lisbon, April 21.—(Special)—
The following indictments by the
grand jury are given out from the
clerk's office, warrants having been
served on the defendants:

Ernest Foster, East Liverpool, one
indictment for Sunday selling.

Aaron Guthrie, East Liverpool, keeping
open on Sunday and Sunday selling,
four indictments.

Charles Parker, East Liverpool,
two indictments for selling to minors.

John Robinson, East Liverpool,
eight indictments for Sunday sell-

ing.

James Forrest, East Liverpool, one
indictment, Sunday selling.

Samuel Conkle, Salem, two indictments
for permitting gambling.

Mont Cook, Salem, two indictments
for gambling.

William Fisher, Washingtonville,
seven indictments, selling to minors
and other violations.

Although Sheriff Leonard was in
East Liverpool and Wellsville on Friday,
no indictments of Wellsville people
are yet given out. The sheriff is
in Salineville today.

E. P. Speidel, of Hanoverton, will
perform the duties of Deputy Sheriff
Lawrence Allison for the next few
weeks. Speidel has already been
sworn in as a deputy, being one of
Sheriff Leonard's appointees last January.
Mr. Speidel is a school teacher
in Hanover township and also practices law.

THE SCALE SIGNED

Wages of East Liverpool and Rock
Springs Railway Employees
Fixed For a Year.

There will be no trouble on the East
Liverpool and Rock Springs railway
this year, for the new scale has been
signed by both the men and the company.
C. A. Smith, president of the company,
though ill at his home in Pittsburgh
for over a week, had the new proposition
sent to him by mail from his office in this city, and it was
returned signed. Saturday evening a
committee composed of President
Kontner, Messers. McKinnon, Allison
and McKinnon, called at the office of
the company, and there the signatures
of the officers of the local were affixed.
The members of the street railway
men's division No. 52 are loud in their
praise of the fair and speedy settle-
ment given them by Mr. Smith, nothing
like it ever having been done in
the city before.

FOR REPRESENTATION

Ex-Senator W. V. Blake, of This City,
Candidate for Legislative
Honors.

Ex-Senator William V. Blake, of this
city, has been urged by his
friends to become a candidate for
representative to the legislature from
Columbiana county and has consented
to enter the field for the nomination
a year from now. His friends point
out that Mr. Blake's experience as a
legislator, his wide acquaintanceship
and his past record all combine to
make him a strong candidate.

THE BURNED PACKET

Steamer City of Pittsburg a
Boat Well Known in This
City.

The news of the total destruction
of the large side-wheel packet, City
of Pittsburg, yesterday morning, was
received with regret in this city. Not
only was this the case with the river
men, but with a number of other per-
sons who have made trips on the
boat.

On the morning of March 23, 1899,

this large boat, which had been built
at Marietta, tied at the local wharf
boat, which was burned two years
ago. There were hundreds at the
wharf on that chilly morning, awaiting
the arrival of the boat, which was
considered to be the finest packet
on the river. At last the boat came,
and those who were at the river
bank well remember the trouble the
officers of the boat had in trying to
make a landing, because of the stiff
wind. The boat made a number of
trips between Pittsburgh and Cincinnati,
but was found to be too large to
operate on the upper Ohio and was
soon transferred to the southern river
trade.

While the boat did operate on this
part of the river, many were the parties
of young folks who made trips
from this city to Smith's Ferry and
from here to lower Wellsville, just
for the ride.

VETERANS' REUNION

FEW G. A. R. MEN TO GO FROM
HERE TO LANCASTER.

Candidacy of Captain Minturn for De-
partment Commander Strong-
ly Supported.

From present indications very few
of the members of General Lyon
post, G. A. R., will attend the depart-
ment encampment at Lancaster next
month. Post Commander Daniel Mc-
Lane and Mr. Anderson have decided
to make the trip, but aside from
these no others have announced their
intention of going.

The Sons of Veterans, whose di-
vision encampment is at the same time
and place, have about completed
their arrangements, and no less than
50 members will attend. The party
will leave this city on Monday morn-
ing, May. They will return Friday
night.

Captain William H. H. Minturn, of
John A. Fowler post, No. 366, New
Lexington, is a candidate for depart-
ment commander, and members of
General Lyon post who know him
state that he has an excellent chance
to win. Captain Minturn enlisted as
a private April 21, 1861, and on Au-
gust 11, of the same year, was made
quartermaster sergeant. He received the
rank of second lieutenant May 9,
1864, and was discharged as a captain
July 9, 1865.

A paper issued in the gentleman's
own town has this to say of his char-
acter and qualification for the position:

"As a Grand Army man, we want
to say if any other old soldier has
the welfare of his comrades more at
heart than Captain Minturn, we fail
to note that man. In a word, no man
in Ohio has given more of his time,
or according to his ability, more help
to the old soldiers than just this same
Captain W. H. H. Minturn. He is a
lawyer of ability and none stands higher
at this bar; he is a Christian gen-
tleman, a man of intelligence and education
and rivals the greatest as an
orator, and as a public speaker he has
no superior in this country. He is in
every way qualified for this office, and
if it is to be given on merit alone, none
stands a better chance than our distin-
guished, faithful, good old Grand
Army comrade, Captain W. H. H. Min-
turn."

RUNAWAY BOYS

THREE FROM THIS CITY ARREST-
ED IN PHILADELPHIA.

Left Here on Wednesday And Were
Following a Theatrical
Troupe.

Chief of Police Thompson received
a telegram this morning from Harry
M. Quirk, superintendent of police in
Philadelphia, stating that three runa-
way boys from East Liverpool had
been arrested in that city.

The names of the boys Chief
Thompson would not divulge, but stated
that the father of one of them
had made arrangements for his trans-
portation home, while the other two
will be left on the mercy of the Phila-
delphia authorities.

The boys left home last Wednesday
and it is said were following a theat-
rical troupe.

Two of the boys found in Philadel-
phia are said to be Harry, son of
Charles Gamble, employed in a local
pottery, and Lloyd Miller, a son of
Constable Miller. The name of the
boy whose father has made arrange-
ments for the transportation home re-
mains unknown.

On the morning of March 23, 1899,

REV. DR. FRANK DE WITT TALMAGE.

This young man, who will carry on the work of his famous father, the late Rev. Dr. T. De Witt Talmage, is about 35 years of age and is pastor of the Jefferson Park Presbyterian church, Chicago. He is a forceful and eloquent preacher and a great future is predicted for him.

LEAPED IN RIVER TO AVOID ARREST

Frank Gray Took Desperate Chan-
ces, and All to No
Avail.

THE WATER WAS COLD

And He Did Not Remain in It Long.
When He Came Forth Officer Sauls-
berry, Who Was in Waiting,
Promptly Nabbed Him.

On account of an inborn dislike of
hearing the grating sound produced
by the closing of cell doors, behind him,
Frank Gray took desperate chances Saturday night to escape the
clutches of the law, and incidentally the
clutches of Police Officer Saulsberry by taking a long run and jump-
into the river at the foot of Broadway.

Gray was drunk and fighting on
Third street when interrupted by the
sight of the officer. He was, however,
nimble footed, and at the first glimpse
of Saulsberry started on a 2:40 gait
toward the river with the officer in
close pursuit. Arriving at the water's
edge Gray hesitated for a second, but
when the thought of a night behind
the bars recurred to him he pondered
no longer and made a daring leap far
out into the water.

Officer Saulsberry quickly realized
the situation—he knew the man would
not go far—and taking a comfortable
seat under the bank, waited for him
to finish his bath. He did not wait
long, for when the water began to
soak Gray began to shiver, and re-
luctantly walked out into the hands of
his pursuer.

Gray was immediately transported
to the city hall by the aid of the pat-
rol wagon and given a change of
clothing; also a place to rest. Sun-
day morning he produced \$10 and was
released, but will appear before the
mayor this evening with the two
charges against him.

A SALE DESIRED

More Litigation Over the Insolvent
Valley Gas Company's
Affairs.

Lisbon, April 21.—(Special)—
W. K. Gaston, as receiver of the Valley
Gas company, of Wellsville, has
filed a petition in which H. B. Nichol-
son, trustee for a number of credit-
ors of the company, is made defendant.

The petition states that as Nichol-
son claims a lien on the property of
the company, the receiver is unable to
sell the same. He asks that the court
give directions concerning the sale of
the insolvent company's property.

BOYS ARRESTED

Three Lads Charged With Stealing
Pistol in Front of a
Store.

Three boys, whose names are with-
held by request of the police, were
arrested Saturday night by Officer
Dawson for stealing a toy pistol from
a show case in the J. G. McCrory
store on Sixth street.

The boys are very young and of
prominent families. They will be
given a hearing this evening before
Mayor Davidson.

A BIG SEWER PIPE PLANT TO BE BUILT NEAR THIS CITY

period he served at Camp Bushnell before entering the volunteer service.

Those of higher rank will receive sums equivalent to the rate paid them while in the service. Captain Hill, commander of Company E, gets in the neighborhood of \$60. All the sergeants, except the first sergeant, who will receive a little more, will get \$9.79, and the corporals will receive a couple of dollars or so less, and so on.

For every dollar allowed the soldiers, Colonel Tolford receives 20 cents. As the grand total to be distributed approximates \$80,000, he will receive a very fat fee for his trouble. No one begrudges him it for the reason that it is doubtful if there is another person in the state who could have prevailed upon the federal government to allow the claim. It is a clear gift to the soldiers, made available by a peculiarly constructed section of a law.

The finance committee budget for
the last three-quarters of 1903 and
the first quarter of 1904 has been practically
completed by the house finance committee. It is about \$400,000 above that appropriated for 1901 and 1902. It carries an appropriation of nearly \$5,000,000. It is reported that another municipal code bill, drawn by ex-Senator James R. Garfield, may be introduced in the house at this session. The measure is the original in a modified form.

FEAST OF PASSOVER

HEBREW OBSERVANCE COM-
MENCES THIS EVENING.

Appropriate Services Will Be Held.
The Jewish Leap
Year.

The Jewish Feast of the Passover
will be observed this year, commencing
at sundown this evening. The event is three weeks later than last
year on account of the Jewish calendar
being arranged according to the
lunar months, making the present on a leap year, containing 13 months.
The Jewish leap year occurs twice
every seventh year, making their holidays
nearly a month later. Last year the event was celebrated during
Easter week.

The Hebrew feast of the passover
was inaugurated by Moses in commemoration of the passing of the death
angel over the houses of the Israelites in Egypt the night of the destruction
of the first born of all Egyptians, immediately preceding the exodus of
God's chosen people from that country.

Originally the festival was observed
by sacrificing lambs toward evening of
the 14th of the first Hebrew month,
now Nisan, and eating them on the following
evening, as well as excluding all leaven from the bread eaten on
that evening and the following seven
days, the first and last of which were
observed as holy.

Since the final destruction of the
temple at Jerusalem the passover has
been observed by eating unleavened
bread during the seven days, by the abstinance from work on the first
and last days, and by the observance
on the first evening of various domestic
rites, commemorative of the deliverance
from Egyptian bondage.

In all homes of Hebrews in this city
services will be held this evening,
while in the larger cities services are
conducted in synagogues.

Base Ball Games.

The West Market Street Juniors
Saturday defeated the Meredith's club
by a score of 26 to 15.

The Pleasant Heights team were
victorious against the sixth grade team
of the Sixth street school, Saturday,
by a score of 8 to 16.

The third team of the Y. M. C. A.
on Saturday defeated the Crockery
City Junior team at base ball. Score,
17 to 3. Physical Director Stephens
umpired the game. The same teams
will play again next Saturday.

Sale of Realty Confirmed.

Lisbon, April 21.—(Special)—
Eliza Bardo, as executrix of William
Bonsall, reports the sale of realty in
Salem township. The sale is confirmed.

Circulating Vile Literature.

Salineville, April 21.—(Special)—
Among those on whom Sheriff Leon-
ard served subpoenas today was J. W.
Duncan, charged with distributing ob-
scene literature.

Work on One of the World's Largest
Factories Soon to Start.

PLANS NOW BEING DRAWN
The Concern Will Include Practical
Men, Independent of the Trust.

BACKED BY AMPLE CAPITAL

Not Less Than 25 Kilns to Be Built.
Scheme Has Progressed So Far
That Orders for Machinery Will
Soon Be Placed.

It was definitely announced this
morning that one of the largest sewer
pipe factories in the world, if not the
largest, would be built in this vicinity
within the coming summer. In fact, the matter has progressed so far
that the plans are now being made
by a Pittsburgh architect, and are ex-
pected to be received in this city within
the next two weeks.

Several meetings of the parties in-
terested have been held within the
past month, and the order for the
plans were placed about two weeks ago.

It is impossible at this time to give
the names of the persons interested
in the new company, but the au-
thoritative statement has been made
by one of the interested parties that
the plant will be built by practical
sewer pipe and brick manufacturing
men, whose reputation in this section
and all over the country has been es-
tablished for years. There is ample
capital back of the new concern, and
when built the factory will be operated
independently of the sewer pipe
combine.

One of the men who is interested in
the new company and who will most
likely be general manager of the plant,
said today that not less than 25 kilns
would be built. The main building
would be three stories in height and
would be built of brick. The most
modern machinery obtainable for this
kind of work is to be purchased. This
end of the proposition has progressed
so far that an order will soon be
placed for the engines and presses.
Employment will be given to over 100
men, and as far as possible workmen
from this city will be employed.

From another source it has been
intimated that some officials of the
sewer pipe combine located at factor-
ies between this city and Toronto are
to be interested financially in the new
concern.

PLATTS' NEW PLACE

Former Y. M. C. A. Secretary Gets a Call to an Allegheny Church.

Residents of East Liverpool and vicinity will no doubt be glad to learn of the recent promotion of Rev. J. A. Platts, of Mingo Junction, who was formerly secretary of the local Y. M. C. A. He has recently received a call to the Central Presbyterian church, at the corner of Lacock and Anderson streets, Allegheny, Pa. He has been the pastor of the Mingo Junction Presbyterian church for the past two years, having left this city at that time.

Rev. Mr. Platts has announced that he will accept the call and will leave for Allegheny as soon as he receives his letter of dismissal from the presbytery in which he is now preaching.

The congregation of the Allegheny church at a recent meeting decided to give their new pastor \$2,000 a year and six weeks vacation each year on pay.

Wants 30 Feet of Land.

Lisbon, April 21.—(Special)—Margaret Orr, of Wellsville, has asked that she be allowed to recover possession of 30 feet of land which, she says, Jeannette Miller appropriated without right. This land extends from Third street, Wellsville, to the bridge across Little Yellow creek. She asks also such other relief as the court may deem proper.

Funeral of a Child.

Funeral services over the remains of an infant son of Mr. and Mrs. Martin Bower, Rural lane, were held Saturday afternoon at 4 o'clock. Interment was made at Spring Grove cemetery.

EAST END**RIGHTS OF WAY SECURED**

No Obstacle in the Way of Extending Street Railway to Smith's Ferry.

There was a well founded report in the East End this morning that after several weeks of hard work the officials of the East Liverpool railway company had at last secured the right of way to lay their tracks for the new extension to Smith's Ferry over the Beaver creek bridge. This will be good news to the residents of Smith's Ferry, as there will be no delay in extending the line from the East End to Smith's Ferry on account of the company being compelled to build a new bridge.

It was stated that the right of way to lay a track over this bridge was held by J. L. B. Dawson, of Beaver Falls, a well known politician of Beaver county. An arrangement has been made with Mr. Dawson by the street railway company, whereby the local company secures the privilege of crossing the little Beaver bridge.

Mr. Dawson is one of the owners of an extensive lot of property in the vicinity of Smith's Ferry, the purpose being to convert this land into a park as soon as the street railway company completes its extension to Smith's Ferry.

FROM DOWN THE OHIO

Another Contingent of New Residents Arrives at Chafin-ville.

The southern boats, as they landed at the local wharf yesterday morning and afternoon, were again the cause of an increase in the population of the East End, more particularly Chafinville. It was said in the East End this morning that not less than 25 persons located in that part of the city yesterday, and among the number were three families who brought their household effects with them. This morning these families started to find new homes, but as practically every house in the East End and even Chafinville is occupied, there will be some trouble in these people finding a suitable home.

Alex Chafin on Saturday made the statement that he knew a large number of new residents were to locate in the East End yesterday, but the number that arrived exceeded his expectations. The male members of the party expect to secure employment in the East End sewer pipe works.

SALES OF PROPERTY

Georgetown And East End Real Estate Has Changed Hands.

Announcement was made this morning that the Thomas Kinsey property at Georgetown, controlled by several Salem bankers, had been sold Saturday to T. J. Laughlin, of Georgetown. The consideration was \$450.

The property on First avenue, East End, owned by Mrs. Mary Shenkle, was sold Saturday evening to Mr. and Mrs. Charles Roberts, for \$1,300. Immediate possession was given.

Buggy Upset.

Harvey Wolcott and William Hays, of the East End, in order to break an attack of spring fever, procured a buggy yesterday and took a trip to Smith's Ferry. The horse was allowed to walk leisurely along the road and it commenced to climb the hill road just above Smith's Ferry. Result: Buggy upset, men thrown out; no one was injured.

AN OLD MAN ACCUSED

Lodged in Jail Charged With Killing Chauncey Hickox at Garrettsville.

Ravenna, April 21.—Wesley Bancroft, of Garrettsville, was lodged in jail charged with the murder of Chauncey Hickox, who was shot and killed in the sugar camp near Garrettsville on March 27. The investigation at that time placed suspicion on Bancroft, who had been in the employ of Hickox, but as sufficient evidence did not develop, detectives were placed in the vicinity and the arrest last night was the result. The prisoner is 69 years of age and has carried a bold front while under suspicion, strongly denying any knowledge of the crime. This morning when visited by the prosecutor in jail he had lost much of his nerve and may make a confession.

A message from Mantua last night stated that Sheriff John Goodenough had dug from the cellar the hoarded gold of William Vaughn, the alleged murderer of his stepmother and her mother. The amount is over \$2,000, all in gold. A special grand jury will be summoned tomorrow to investigate both the Bancroft and Vaughn murders.

SAVED HIS GRANDSON

But Lost His Own Life in the Effort Killed By a Train.

Wheeling, April 21.—David Anderson, an aged citizen of McMechen, sacrificed his life yesterday to save that of his grandchild, to whom he was devotedly attached. The two were gathering driftwood along the Ohio river railroad tracks, and Anderson turned suddenly to see that the boy was on the track, with the "flyer" speeding toward him.

He started across the track, and succeeded in pushing the boy safely beyond the rails, but the engine bore him down, and he was crushed to death.

RELIC HUNTERS

Searching the Country Where the Morgan Raiders Engaged in Battle.

Steubenville, April 21.—The finding of a bullet in a tree that was cut down on the Stephenson farm across the road from the Two Ridge church several days ago, has started relic hunters to work in a search for other like relics of the war supposed to be buried around that section.

The farm, now the property of Mr. Stephenson, was the scene of some lively firing in 1863 when the Morgan raiders held forth in that section. At the time the raiders appeared near Two Ridges, Frank Allen, who still lives in that neighborhood, was one of the real heroes who tried to stop their progress. Seeing them approaching from across the hill he secured his gun and left the house, determined that they should give an account of themselves before they proceeded over his property. In this action, however, he was misguided, and as he now says he was up against a long proposition. He was a courageous youth, though, and when Morgan's men came close to his house, he aimed and fired. Then he jumped behind a tree. It was a lucky move for him, as a second after he fired, a fusillade of bullets whizzed by. One of them lodged in the tree behind which he had taken refuge.

A few days ago the tree was cut down and when cut up the bullet was found imbedded almost in the center. It was removed and when weighed tipped the scale at the two ounce mark. The ball is now in the possession of Bert Nosman. The tree had grown to wonderful size since the leaden ball was sent into it, and when cut up 800 feet of good lumber was obtained.

Now it is believed that there are more relics in that vicinity and every course the raiders traversed is being inspected in the hope of finding something that might recall incidents of the trip through this section of the famous Morgan raiders.

Holst With His Own Petard.

A Philadelphia clergyman told a story of a young man who took his best girl to church and when the time for "collection" came round rather ostentatiously displayed a five dollar gold-piece. Presuming upon the engagement to marry that had been made by her, the young woman placed a restraining hand upon the arm of her fiance. "Why, don't be so extravagant, George!" she exclaimed.

"Oh, that's nothing," he replied. "I always give \$5 when I go to a strange church."

Just then the deacon came with the plate, and George dropped a coin. Everything seemed favorable, and the young man beamed with a sense of generosity. Then the minister made the announcements for the week and concluded with the wholly unexpected announcement of the day's collection.

"The collection today," said he, "was \$3.75."

George hadn't much to say all the way to his fiancee's home.

Breathe Through Your Nose.

In all kinds of atmosphere the breath should only be inhaled through the nose. An occasional breath of extra pure air through the mouth may be good, but in cars and in most offices and rooms nose breathing is essential. A second rule is, since so much time is spent in cars and offices and rooms in earning a livelihood and since these places are overheated and underventilated—the heating and ventilation being out of the control of most of us—we must take in fresh air whenever possible in order that we may restore the balance. The best times to do this will be early in the morning, when the air is freshest, and late at night, when deep breathing will help us to get sleep.

We may breathe correctly while we are waiting in a street and especially where streets meet. We can soon form an automatic habit of breathing properly on such occasions.

ARABIAN COURTSHIP.

Sworn Secrecy Envelops the Wooing and Winning of the Girl.

An Arab loves as none but an Arab can love, but he is also mightily exciting and easily won. An Arab sees a girl bearing water or brushwood and in a moment, almost at a glance, is as madly in love as if he had passed years of courtship. He thinks of nothing else, cares and dreams of nothing else but the girl he loves, and not infrequently, if he is disappointed in his affection, he pines and dies. In order to commence his suit he sends for a member of the girl's tribe and, first insuring his secrecy by a solemn oath, confesses his love and entreats his confidant to arrange an interview.

The confidant goes to the girl, gives her a flower or a blade of grass and says:

"Swear by him who made this flower and us also that you will not reveal to any one that which I am about to unfold to you."

If the girl will not accept the proposal, she will not take the oath, but nevertheless keeps the matter perfectly secret from all. If she is favorably disposed to the match, she answers:

"I swear by him who made the flower you hold and us," and the place and time of meeting are settled. These oaths are never broken, and it is not long before the ardent lover becomes the happy husband.

F. R. STOCKTON DEAD

The Noted Novelist Expired Suddenly, In Washington, D. C.

PARALYSIS CAUSE OF DEATH.

emy of Sciences, Wednesday Night, at a Banquet of National Academicians of the Brain—Was Taken Immediately Resulted From Hem-

Washington, April 21.—Mr. Frank P. Stockton, the well-known novelist, died suddenly here Sunday morning from hemorrhage of the brain.

The cause of Mr. Stockton's death was paralysis immediately resulting from a hemorrhage in the brain. He was a guest at the banquet held Wednesday night of the National Academy of Sciences, when he was taken suddenly and mysteriously ill. The ailment did not at that time appear to be serious, and for a while the sufferer seemed to be improving, but a change for the worse came Sunday morning and death occurred at 11 o'clock. By his bedside when the end came were his wife, who was a Miss Tuttle, of Virginia, and her sister. He was 68 years old. The body will be taken to Philadelphia for interment. No further funeral arrangements have been made as yet.

Mr. Stockton had spent the past winter in New York, and had done very little literary work, preferring to rest. After a visit of nearly a month to Atlantic City, he came to Washington so that he might attend the banquet of the Scientists, intending then to go to his beautiful home in Charleston, W. Va.

Mr. Stockton was a Philadelphian by birth, in early life was an engraver and draughtsman, but soon abandoned this occupation for journalism. Many years ago, however, he retired wholly from newspaper work and devoted himself to literature. His reputation as a story writer was world-wide.

SAMAR NATIVES TREACHEROUS.

Unequalled In History of Warfare, Said Gen. Smith—Awful Hardships of Troops.

Manila, April 21.—General Jacob H. Smith, who was in command of the American forces in the island of Samar at the time Major L. W. T. Waller, of the marine corps, is said to have executed natives of that island without trial, was to have gone home on the Buford, which sailed yesterday, but has disembarked here.

Orders have been received here from Washington to hold a court of inquiry into the general conduct of affairs in Samar. General Smith claims that, to the best of his belief, the officers and men of his command in Samar had to face insurmountable difficulties, that the hardships they encountered were almost unbearable and that the treachery of the natives of the island is unequalled in the history of warfare. He says that the American soldiers acted, in the circumstances, with the greatest forbearance shown in the war in the Philippines. He expressed his doubt if the troops of any nation in the world would or could have acted in the circumstances in Samar as well as did the Americans.

Gen. Rufino and Men Gave Up, In Mindanao.

Manila, April 21.—Surrenders to the American authorities of small parties of insurgents are reported daily, and these have increased since the recent surrender of the insurgent General Malvar.

General Rufino, with 26 officers and 375 soldiers, has surrendered to the native constabulary in the province of Misamis, in Mindanao, where the constabulary are co-operating with the military.

THE ANTI-ANARCHIST BILL.

It will Likely Be Considered by the House the Latter Part of the Week.

Washington, April 21.—The early part of the coming week in the house of representatives will be devoted to routine business with a prospect that some important general legislation may be taken up during the latter part of the week. Today will be devoted to District of Columbia business. Tuesday to war claims and Wednesday to the oleomargarine bill, which was amended by the senate.

During the remaining days of the week it is practically settled that the anti-anarchist bill of Chairman Ray, of the judiciary committee, will be considered. The measure is much more stringent than the anarchist bill passed by the senate. Plans also are on foot for considering the omnibus business public building bill during the latter days of the week. This measure has not been reported from the house committee on bills and grounds, but it probably will be completed early this week, so that it can be taken up later in the week. Beyond this no exact program has been arranged. Two appropriation bills, the agricultural and naval bills, are about ready and may be brought in at any time, and the military academy appropriation bill is on the calendar.

RIVER AND HARBOR BILL.

It is to Be Taken Up In the Senate Today.

Washington, April 21.—The senate will begin the week by taking up the river and harbor appropriation bill today, and when that measure is disposed of will resume consideration of the Philippine government bill. It is not expected that much time will be required to get the river and harbor bill through the senate, as it is generally approved by senators.

Senator Frye, chairman of the committee on commerce, who has charge of the bill, yesterday expressed the opinion that there would be no debate on the bill and that it would pass as soon as it could be read. It is now understood that Senator Rawlins, senior Democratic member of the senate committee on the Philippines, shall lead off in the speechmaking in opposition to the Philippine bill, to be followed by other members of the committee and other Democratic senators. The opinion is expressed that the bill will be before the senate for at least three weeks.

Washington, April 21.—While the fortification appropriation bill was under consideration in the house Saturday Mr. Grosvenor, of Ohio, one of the ways and means leaders, said that the amendment which the opponents of the ways and means committee had engrafted upon the Payne bill not only wiped out the differential on sugar, but also did away with the countervailing duty of the Dingey law.

Mr. Weeks, of Michigan, made a spirited rejoinder in behalf of those who opposed the ways and means committee. He frankly conceded that the motive of the opposition had been to kill the reciprocity bill. The fortification appropriation bill was passed and the conference report on the legislative appropriation bill agreed to.

60 PENSION BILLS PASSED.

Senate Saturday Construed Dependent Act to Include 90-Day Men.

Washington, April 21.—In the senate Saturday numerous measures of minor character and nearly 60 private pension bills were passed. Eulogies were pronounced upon the life and character of James Henderson Kyle, late a senator from South Dakota.

Among the measures passed Saturday was one authorizing the expenditure of \$100,000 for a public building at Findlay, O., and a bill constraining the dependent pension act of 1890 so as to include all persons who served 90 days during the Civil War and who were honorably discharged, but excluding those of the First, Second, Third, Fourth, Fifth and Sixth United States volunteer infantry who had prior service in the Confederate army of navy.

THE ANTI-ANARCHIST BILL.

It will Likely Be Considered by the House the Latter Part of the Week.

Washington, April 21.—Mr. Frank P. Stockton, the well-known novelist, died suddenly here Sunday morning from hemorrhage of the brain.

The cause of Mr. Stockton's death was paralysis immediately resulting from a hemorrhage in the brain. He was a guest at the banquet held Wednesday night of the National Academy of Sciences, when he was taken suddenly and mysteriously ill. The ailment did not at that time appear to be serious, and for a while the sufferer seemed to be improving, but a change for the worse came Sunday morning and death occurred at 11 o'clock. By his bedside when the end came were his wife, who was a Miss Tuttle, of Virginia, and her sister. He was 68 years old. The body will be taken to Philadelphia for interment. No further funeral arrangements have been made as yet.

MAN'S GREATEST NEED TODAY

By EDWIN MARKHAM.
Author of "The Man With the Hoe"

MAN'S GREATEST NEED TODAY IS THE OLD, OLD NEED OF THE WORLD SINCE TIME BEGAN—LESS OF SELFISHNESS, MORE AFFECTIONATE JUSTICE FOR THE OTHER MAN. HUMANITY'S GREAT NEED IS THAT MEN SHOULD RISE OUT OF SELFISHNESS INTO OTHERHOOD, SHOULD BLOSSOM OUT OF SELF SEEKING INTO SELF FORGETTING.

WE NEED TO FIND SOME WAY FOR MAKING THE GOLDEN RULE A WORKING PRINCIPLE. THIS GOLDEN LAW DEMANDS THAT MANY CHANGES BE MADE IN THE WORLD FOR HUMAN WELFARE, AND TO MY MIND CHIEF AMONG THE NEEDS THAT ARE PRESSING IS THE NEED THAT EVERY MAN AND WOMAN SHOULD BE SECURE IN THE RIGHT TO MAKE A LIVING BY LABOR. THE RIGHT OF MAN TO WORK IS A RIGHT THAT CIVILIZATION SEEMS TO HAVE FORGOTTEN. IN SOME WAY SOCIETY SHOULD SECURE TO EVERY EARNEST CITIZEN THE RIGHT TO WORK—MORE THAN THAT, THE RIGHT TO REST FROM HIS WORK.

Chicago, the center of the packing industry, appears more deeply aroused than any other city by the high prices asked for meat. Secretary Pritchard, of the health board of that city, advocates a boycott on the products of the beef trust, saying: "If a few thousand families in Chicago would do this, the enforced abstinence from meat would do them no harm and would no doubt result in a lowering of prices. Certainly if the movement were large enough and honestly lived up to, it would prove more effective than any other influence I can think of in bringing the beef barons to time." Mr. Pritchard believes that, if properly promulgated, the movement will become national in scope. A Chicago trade journal, the Modern Grocer, asserts that there is little doubt that the price of meat is being manipulated. "The advanced prices of cattle and corn," this journal asserts, "do not seem sufficient to justify the exorbitant rates now charged. Moreover, the condition is a great hardship on the laboring people of the country, who have been obliged to curtail their consumption of beef. Decisive action is required." In other parts of the country the experiment of establishing meat markets independent of the trust is being tried, and it is possible that this will have its effect in time. Certainly if it is found that there is reasonable profit in the business, the trust will be brought to its senses in short order.

The neglect of the legislature to pass a municipal code bill may necessitate an extra session. This is the opinion of ex-Senator James R. Garfield and other good lawyers. The supreme court is quite likely to declare many of the laws enacted for the government of cities special legislation and therefore void. A measure that would render the so-called special legislation unnecessary as well as impossible would greatly diminish the work of the legislature besides meeting a popular want.

Canada, in order to force us to lower our duties, enacted a preferential tariff in favor of British goods. The only notable effect has been to let in about \$10,000,000 worth of cheap woolen goods last year, resulting in the closing up of a number of Canadian woolen mills. Low tariff kills home industry in Canada as well as here."

J. P. Morgan is now reported to have formed a combination including all the trans-Atlantic steamships. If this thing keeps on, J. P. will soon

be sighing that there are no more worlds to conquer.

The Ohio legislature is to be commended for a wise and humane act. It has made it unlawful to engage in the "sport" of trap-shooting where live birds are the targets.

Even the farmers are complaining of a scarcity of labor. The man who is out of work now must be in that condition from choice rather than from necessity.

It is often asserted that Americans eat too much meat. They are likely to get cured of the habit if present prices continue.

Bryan wants to harmonize the Democratic party by compelling all the other fellows to agree with him.

More stamp taxes will be abolished on July 18, and various classes of business will be benefited.

There is a man in New Hampshire who says he lives on 69 cents a week. He must be a vegetarian.

OBITUARY

James Bigger Hall.

James Bigger Hall, a prominent citizen, died at 1:10 this morning. He had been in poor health for the past five years, being afflicted with consumption. Mr. Hall was born near Murdocksville, Washington county, Pa., 60 years ago, on March 17. He came to East Liverpool in 1872, where he engaged in business as a carpenter and contractor, first as a member of the firm of Hanley, Hall & Co., and afterwards in the firm of Paul Anderson & Co. Mr. Hall was a member of the Presbyterian church. He is survived by his wife and adopted daughter, Mrs. J. T. Herbert. He also leaves three brothers and two sisters—John W., Robert and William H. Hall, and Mrs. Mary M. Stewart, of this city, and Mrs. Emma Stewart, residing near Fairview, W. Va. The funeral will take place at 1 p. m. on Wednesday from his late residence, 112 Kossuth street, Rev. C. G. Jordan officiating.

Mrs. Nancy Abrams.

Mrs. Nancy Abrams, aged over 60 years, died at her home near the Bell school house yesterday morning of paralysis. The funeral will be held Tuesday, interment being made at Long's Run cemetery. Mrs. Abrams was the wife of Buckley Abrams, well known in this city. Last Wednesday she suffered a stroke of paralysis and fell over a stove. In so doing she received severe burns from which she did not recover. Mrs. Abrams was born on the same farm upon which she died. She is survived by her husband and a brother, James Kinney, and a sister, Miss Louise Kinney, who for many years has made her home at the residence of Mrs. A. V. Kinney, of Washington street.

Mrs. Hattie Blazier.

Salem, April 21.—(Special)—Mrs. Hattie Blazier, aged 51 years, died at the home of Norman Blazier, in this city Sunday evening at 6 o'clock. Her home was in East Liverpool and she is the mother of several children, all of whom are living in that city. The remains will be shipped to her home tomorrow morning, where the funeral services will be held.

Bulah May Phelps.

Bulah May Phelps, aged eight months, died at the home of her parents in a small shanty boat in the Ohio river near the Globe pottery, Saturday evening of measles. The funeral services will be held this afternoon at 4 o'clock, interment being at Spring Grove cemetery.

POTTERY NEWS

Ambrose Cartwright, formerly of this city, but now an official of the Barberville Pottery company, in an interview, has said:

"You can state positively that this firm is not going into the pottery combination."

The statement was in answer to a question relative to the Barberville concern's opinion upon the matter of consolidation. It is a well known fact that the plans of the Akron companies with those of the Bradshaw's have received a serious blow by the action of the Barberville company. The reason as given out by the concern is that it can handle a greater amount of business and make more money by itself than when in combination with the three other companies. The meeting that was to have been held at Akron Saturday was declared off by the officials, and the matter rests just exactly where it did when considered last by the officials. It was learned Saturday that the promoters of the deal are John G. Ingalls and T. N. Cook, of the Akron China company, L. K. Force and R. H. Kent, of the Summit China company, and President Bradshaw, of the Niles Pottery company.

About a week ago it was thought that the plans of consolidation would speedily go through and the companies would come to an understanding, but the decision of the Barberville company has slightly interfered with its smooth career.

A writer for an eastern trade paper wretchedly said: "Within the past five years there have been added to the capacity of East Liverpool potteries no less than 77 kilns. Twelve more are to go into operation within 60 days, making 89 in East Liverpool alone, to say nothing of the ten kilns put in operation at Wellsville within the past three years. There are 226 ware kilns in East Liverpool. These conditions give an increased capacity of about 45 per cent to this pottery center. But in addition to the increase here we have to add that of many new pottery towns within a radius of 50 miles—as New Castle, Niles, Lisbon, Salem, Sebring, Ford City, Canonsburg—about 10 kilns. There are still more under construction this spring—Barberton, Salineville, Youngstown—and a number hovering around in the air, looking for a free site with a bonus attachment. While the demands of our country are increasing from year to year, in all lines of manufactured products, is not the pottery capacity outstripping, for the present, that of our people's consumptive capacity in the line of staple white granite and semi-porcelain?"

In showing how far unionism has advanced in East Liverpool, a New York trade paper says: "The right of workmen to organize for their own benefit is obvious, and there is no question that in some instances it has been absolutely necessary in order to resist the injustice and tyranny of employers. Such a condition, however, has never existed in the pottery trade, nor is it likely. Still operative potters have had some grievances which were settled more quickly by reason of the fact that they could make the demands en force, and at the present time their organization is strong. They have been very active in proselytizing of late, especially in East Liverpool, until there is scarcely a person outside the proprietors and office forces that is not affiliated with the union."

It is claimed by members of clay workers' union No. 21 that the dispute in progress at the Vodrey plant for some time will be speedily settled, and at a meeting of the local held recently a committee was appointed to investigate matters and if possible adjust differences. It is alleged that the firm asked the clay makers to perform certain work out of their department. The question was reported to the local with the result that the conference with the firm was arranged for.

French china manufacturers, says the Cleveland Leader, will plumb themselves on the decision of the government authorities having charge of the fittings and decorations of the White House to provide an entire new service of Sevres porcelain for the fine old home of the presidents, in order that state entertainments may be more artistic and beautiful. Such action in furnishing the executive mansion is an official admission of the supremacy of France in the fine art of working in clay. It will gratify French pride, and it will also be worth much money to French manufacturers of porcelain.

George Brooks, who has been working on the glost bench at Brunt's for some time resigned his position there Saturday, and this week will leave for Industry, where he will make his future home. Mr. Brooks will assume the management of a large farm near Industry, and within a short time the owner expects to begin to drill for oil.

Hood's Sarsaparilla promises to cure and keeps the promise.

The work will be done by Snyder & Sons, of Beaver Falls, and several rigs will be erected within a month.

The difficulty among the kilndrawers at the E. M. Knowles pottery has not been settled. The crew making a demand for an additional ten cents per day to cover street car fare, is still out. Others have been secured to take their places. Several of the men who made the demand did not hold membership in No. 17, and for that reason could not take their grievance into the organization for settlement. It is not likely favorable action would have been taken if they had, as it is a matter that would conflict with the uniform scale agreement.

A trades council with five locals was organized at Lisbon April 13, with 30 members. Each local is allowed six delegates. Officers were installed as follows: President, W. L. Atchison; vice president, John Eells; recording secretary, E. M. Sexton; treasurer, John Hartman; financial secretary R. Green; inspector, A. Davis; sergeant at arms, H. Moore; trustees, D. B. Ewing, W. L. Porter, Thomas Francis.

The traveling men who have returned to the city during the week are preparing to go out again at once, deeming active work now important with the inauguration of genuine spring weather. They generally agree that it requires a greater effort to sell pottery this spring than for several seasons past, though they seem confident that brighter prospects are ahead.

D. E. McNicol arrived in New York from East Liverpool on Monday and went east. He was accompanied by his wife. They spent Sunday in Washington. Mr. McNicol has been a frequent visitor to the capital of the nation, but always on business, and says he saw more of the place during that one day than he ever did before. It was Mrs. McNicol's first visit there.

Little work has been done in the pressing department of the Diamond pottery since the holidays. For almost three months after Christmas scarcely two full pays were made by the employees of this department. Early in March business picked up to a slight degree, but has once more become slow. The pressers are now working less than half time.

It has just been given out that when the Thomas pottery at Lisbon commenced operations it was compelled to destroy nearly \$2,000 worth of moulds. The moulds warped, and were unfit for use. Matters have been straightened out and the plant is working steadily. Almost all the ware made is being shipped and orders are plentiful.

The following persons have charge of the several departments of the Lisbon pottery: John Reed in charge of the glost, Harry Mulligan of the glaze placing, Price Coothman has charge of the biscuit end. The slip house is governed by A. J. Boyer. There was some trouble with the clay at first but it is working better now.

Word has been received in this city that a well known capitalist of New York would like to invest not less than \$250,000 in the pottery business. The capital is said to be private, and the desire to invest it is from direct sources.

A report was current at Lisbon during the past week that a new pottery was to be built during the summer. The name of E. J. Owen, of this city, was coupled with the statement.

Chicago, the center of the packing industry, appears more deeply aroused than any other city by the high prices asked for meat. Secretary Pritchard, of the health board of that city, advocates a boycott on the products of the beef trust, saying: "If a few thousand families in Chicago would do this, the enforced abstinence from meat would do them no harm and would no doubt result in a lowering of prices. Certainly if the movement were large enough and honestly lived up to, it would prove more effective than any other influence I can think of in bringing the beef barons to time." Mr. Pritchard believes that, if properly promulgated, the movement will become national in scope. A Chicago trade journal, the Modern Grocer, asserts that there is little doubt that the price of meat is being manipulated. "The advanced prices of cattle and corn," this journal asserts, "do not seem sufficient to justify the exorbitant rates now charged. Moreover, the condition is a great hardship on the laboring people of the country, who have been obliged to curtail their consumption of beef. Decisive action is required." In other parts of the country the experiment of establishing meat markets independent of the trust is being tried, and it is possible that this will have its effect in time. Certainly if it is found that there is reasonable profit in the business, the trust will be brought to its senses in short order.

The neglect of the legislature to pass a municipal code bill may necessitate an extra session. This is the opinion of ex-Senator James R. Garfield and other good lawyers. The supreme court is quite likely to declare many of the laws enacted for the government of cities special legislation and therefore void. A measure that would render the so-called special legislation unnecessary as well as impossible would greatly diminish the work of the legislature besides meeting a popular want.

Canada, in order to force us to lower our duties, enacted a preferential tariff in favor of British goods. The only notable effect has been to let in about \$10,000,000 worth of cheap woolen goods last year, resulting in the closing up of a number of Canadian woolen mills. Low tariff kills home industry in Canada as well as here.

TROUBLE AT THE HOME

Mother-in-Law's Presence Objected to
And Police Aid
Invoked.

A man came hurriedly into a downtown restaurant at an early hour Sunday morning and asked the man behind the counter if he had seen anything of a policeman. It happened that Officer Houser was in the room at the time and he immediately asked what the trouble was and was informed that a man near the cemetery was trying to murder his family. Upon investigation he found that there had been "somthing doing" at the residence of W. F. Dennis on Spring Hill avenue, or rather the house owned by his mother-in-law, several hours previous to that time.

It appeared that on Saturday evening Dennis had come home to see his wife and found his mother-in-law present. Dennis is not very fond of this personage, and it is said that he immediately put her out of the house, her own property. It is thought that recent trouble between Mr. and Mrs. Dennis was all on account of the interference of Mrs. Dennis' mother.

Mrs. Dennis stated to the officer that she was very glad to live with her husband, and that there had been no trouble between them on the previous evening. The officer then left the house and is now searching for the man who sent him on the fruitless journey, whom, up to the present time he has been unable to locate.

Several days ago Mrs. Dennis had her husband arrested on a charge of non-support of his minor children. The case was given a hearing before Squire MacKenzie in which the defendant was discharged with a severe reprimand, because of a lack of evidence on the part of the plaintiff.

More trouble may yet follow as a result of the Saturday night affair, as the mother-in-law intends to have

the Dennis family put out of her house.

The tow boat Fred Wilson, with a heavy fleet of coal bound for Louisville and Memphis, tied at the Wellsville wharf on Sunday morning. The officers of the boat came on shore and spent a few hours enjoying themselves and at the same time looking up men to work on the tow for the balance of the down river trip. They succeeded in securing the services of seven Wellsville boys at \$40 per month and expenses for the down trip.

When all were ready to resume the journey the bell rang, the wheel turned, but the vessel failed to move. Upon investigation it was found that the tows were struck on a bar that extends out in the river from a point a short distance below the landing place. They were compelled to stay at the landing until early this morning, when they resumed their journey.

A HORSE THIEF

Wellsville Authorities Looking for
One Who Stole a Rig in
Canton.

Wellsville authorities have recently received a communication from Marshal Ed B. Bone, of Canton, notifying the man to be on the lookout for a horse thief, who on the night of April 14, stole a light sorrel mare and a piano box buggy from the stable of J. B. Poorman in Canton. The horse is described as having a small star on forehead and weighing 1,100 pounds. A black set of harness was also stolen at the time. The buggy running gear was of dark red.

A big reward is offered for the apprehension of the thief and the recovery of the property. It is thought the rig came to this county from Canton.

Deserted at the End.

William the Conqueror was a man of very gross habit of body and at the siege of Mantes was hurt by the rear of his horse, the pommel of the saddle striking the king in the abdomen and causing injuries from which he died in a few days. Before his death he was deserted by all his attendants, who stole and carried off even the coverings of the bed on which he lay. The body remained on the floor of the room in which the king died for two days before it was buried by charitable monks from a neighboring monastery.

TEST OF GAS MAKING

Experiment at Gas Apparatus And Construction Company Plant Soon to Be Made.

It was reported Saturday that the Gas Apparatus & Construction company would begin this morning the manufacture of gas, by its new process. Upon investigation this morning it was found that the two prime movers in the company had gone to Pittsburgh to attend to business matters pertaining to the plant. These gentlemen are H. H. C. Hammerton and A. W. Brown. It is now said that it will take at least two weeks to again get the plant in shape ready to begin operations.

A number of prominent business men of East Liverpool, Pittsburgh, Canton and Youngstown are heavy stockholders in the company. Several experimental tests of their process of making gas have been tried in the East Liverpool high school and have proved very successful.

STRUCK BY A CAR

The Hookstown Hack And Its Passengers Have a Narrow Escape.

J. W. Allison, of Hookstown, who drives a hack between Hookstown and Chester, narrowly escaped being run over by a Rock Springs street car at about 11:30 this morning near the park. He was bringing a couple of women from Hookstown and when near the park attempted to cross the street car track in front of a street car which was running at a good rate of speed and was only a few feet away.

Allison knew the car was near, but did not know exactly how near. He thought he would risk it, however, and attempted to cross the track. The rear end of the wagon was struck by the front end of the car and was swerved around, but did not upset. The most damage was done to the street car, as the wagon came in contact with a wire and in some way burned out one of the motors under the car. The women were badly scared and somewhat shaken up but were otherwise uninjured.

Why the Church Was Crowded.

A certain little Flemish watering place much frequented by English and American visitors has two attractions, a Presbyterian church and a roulette table. At a recent service in the church it occurred to one of the "pillars" that it might be lucky to play the number of the hymn after the sermon at the roulette table. So he stole out of the church and did so. It happened that the number of the hymn did turn up, and the lucky croup became the talk of the village for the rest of the week.

Next Sunday the church was crammed to the door. The pious pastor was rejoiced in heart. After a powerful address he gave out "hymn No. 27." The moment the words left his lips, to his consternation, there was a rush to the door, and he was left with a faithful handful to upraise their agitated strains of praise.

As for the rest, they made a bee line from the house of prayer to the house of play. It is said that their little adventure cost them all very dear.

Mother at Prayer.

Once, says a writer, I suddenly opened the door of my mother's room and saw her on her knees beside her chair and heard her speak my name in prayer. I quickly and quietly withdrew with a feeling of awe and reverence in my heart.

Soon I went away from home to school, then to college, then into life's sterner duties. But I never forgot that one glimpse of my mother at prayer nor the one word—my own name—which I heard her utter. Well did I know that what I had seen that day was but a glimpse of what was going on every day in that sacred closet of prayer, and the consciousness strengthened me a thousand times in duty, in danger and in struggle.

The Ingredients of Fireworks.

The chief constituents of all fireworks are gunpowder and its ingredients. Iron and steel filings and cast iron borings, free from rust, are used to increase the brightness of the display and produce the Chinese fire. When the rocket explodes up in the air, the bright and varicolored sparks are produced by these filings as they ignite in the oxygen.

Copper filings and copper salts are used to produce greenish tints. A fine blue is made with zinc filings. A light blue tint with much smoke is made out of sulphur of antimony. Amber resin and common salt protected from dampness produce a yellow fire. Salts of strontia make a red light. A green light is also made by the salts of barium.

TROUBLE AT THE HOME

Mother-in-Law's Presence Objected to
And Police Aid
Invoked.

A man came hurriedly into a downtown restaurant at an early hour Sunday morning and asked the man behind the counter if he had seen anything of a policeman. It happened that Officer Houser was in the room at the time and he immediately asked what the trouble was and was informed that a man near the cemetery was trying to murder his family. Upon investigation he found that there had been "something doing" at the residence of W. F. Dennis on Spring Hill avenue, or rather the house owned by his mother-in-law, several hours previous to that time.

It appeared that on Saturday evening Dennis had come home to see his wife and found his mother-in-law present. Dennis is not very fond of this personage, and it is said that he immediately put her out of the house, her own property. It is thought that recent trouble between Mr. and Mrs. Dennis was all on account of the interference of Mrs. Dennis' mother.

Mrs. Dennis stated to the officer that she was very glad to live with her husband, and that there had been no trouble between them on the previous evening. The officer then left the house and is now searching for the man who sent him on the fruitless journey, whom, up to the present time he has been unable to locate.

Several days ago Mrs. Dennis had her husband arrested on a charge of non-support of his minor children. The case was given a hearing before Squire MacKenzie in which the defendant was discharged with a severe reprimand, because of a lack of evidence on the part of the plaintiff.

More trouble may yet follow as a result of the Saturday night affair, as the mother-in-law intends to have

the Dennis family put out of her house.

TOW BOAT GOT FAST

Fred Wilson Had Trouble at Wellsville—Enlarged Its Crew There.

The tow boat Fred Wilson, with a heavy fleet of coal bound for Louisville and Memphis, tied at the Wellsville wharf on Sunday morning. The officers of the boat came on shore and spent a few hours enjoying themselves and at the same time looking up men to work on the tow for the balance of the down river trip. They succeeded in securing the services of seven Wellsville boys at \$40 per month and expenses for the down trip.

When all were ready to resume the journey the bell rang, the wheel turned, but the vessel failed to move. Upon investigation it was found that the tugs were struck on a bar that extends out in the river from a point a short distance below the landing place. They were compelled to stay at the landing until early this morning, when they resumed their journey.

A HORSE THIEF

Wellsville Authorities Looking for One Who Stole a Rig in Canton.

Wellsville authorities have recently received a communication from Marshal Ed B. Bone, of Canton, notifying the mto be on the lookout for a horse thief, who on the night of April 14, stole a light sorrel mare and a piano box buggy from the stable of J. B. Poorman in Canton. The horse is described as having a small star on forehead and weighing 1,100 pounds. A black set of harness was also stolen at the time. The buggy running gear was of dark red.

A big reward is offered for the apprehension of the thief and the recovery of the property. It is thought the rig came to this county from Canton.

BOAT BURNS; MANY PERISHED.

**City of Pittsburg Caught Fire,
and Was Destroyed on the
Ohio River, Near
Cairo, Illinois.**

PROBABLY 60 DEAD, THE CAPTAIN ADMITS.

Among Those Missing Is a Ten-Year-Old Son of Mr. and Mrs. Archie M. Allen, of Pittsburg, the Parents Being Among Those Saved—Among the Injured Were Mrs. S. R. Leach, of Bridgeport, O., and Mrs. Ellen Fenmore, of Arbuckle, W. Va., Who Were Burned—Panic Among the Passengers—Fire Broke Out While Many on Board Were Asleep.

Cairo, Ills., April 21.—One of the worst disasters in the history of Ohio river navigation occurred shortly after 4 o'clock Sunday morning, near Ogden's landing, near this city. While almost all aboard were sleeping the steamer City of Pittsburg was discovered to be on fire and in a few moments was burned to the water's edge. The loss of over \$80,000 on the steamer does not include the cargo, both being a total loss. The latest estimates last night were that 150 persons were aboard and that not more than half of them were saved. Many of the latter were burned or injured. As the register of the steamer was burned, no list could be given, either of the victims or of the survivors, and in the confusion it was impossible to get complete lists. Captain Phillips admitted that the death list may reach 60.

Two boats and all available craft from this city went to the scene for relief. Efforts were made to catch the New South, of the same line, at Paducah, and have her steam back for relief, but the steamer had passed Paducah, upward bound, before the telegram was received.

Most of Passengers in Bed.

Most of the passengers were still in bed when Second Clerk Oliver Phillips gave the alarm. The engineers at once started all the pumping engines, while the crew brought all the hose into play. Amid the streams of water on all sides, the flames from the lower deck and dense clouds of smoke, the passengers rushed from their staterooms and a frightful panic ensued. The appeals of the officers and crew could not appease the terror-stricken crowds that interfered with those throwing water on the flames as well as with those working with the lifeboats. Few could adjust life preservers or do anything for themselves.

The smoke was stifling. Great clouds floated through the blazing steamer, choking the passengers and adding to the terror. Children cried pitifully, begging that they be saved.

Lifeboats were manned and every effort was made to save the passengers from the floating furnace of flames.

Seen from the river banks, the sparks from the burning craft and the dense clouds of smoke, tinged with flames, made a most impressive and weird spectacle.

Boats Did Rescue Work.

Boats were sent from shore to help in the work of rescue. Boats, laden to their limit with passengers in the scant attire they were to gather, were landed at the river banks. As fast as the boats could be emptied they returned to the ill-fated steamer, the rescuers losing no time from their work.

The burning steamer was quickly headed to the bank, but passengers were forced to jump from the stern, and trying to swim ashore through the swift current many were drowned. Many also perished in the flames. Only one yawl was saved, without scars, and the women were taken off. About 20 or 30 were taken off in the yawl. The rest were picked up out of the water.

Help, except from people living nearby, did not arrive until 2:30 o'clock Sunday afternoon, and na-

Fred Jones, Newport, striker engineer.

Tom Smith, Memphis, striker pilot.

William Bollinger, Cincinnati, first steward.

Henry Thomas, colored, Cincinnati, second steward.

John Botts, Cincinnati, cook.

Tom Gilfoyle, Cincinnati, baker.

And the following members of the crew whose names are unknown:

First pantryman.

Three colored firemen.

Six cabin boys.

Two chambermaids.

Six freight deckhands.

Captain Phillips says 20 or 25 of the passengers are missing and the same number of the crew. Two women passengers were severely burned, but will recover. They are Mrs. S. R. Leach, of Bridgeport, O., burned about the hands, and Mrs. Ellen Fenmore, of Arbuckle, W. Va., severely burned about face.

Mrs. Fannie McCullom, of Leavensworth, Ind., lost three children.

Pat Burt, of Owensboro, Ky., wife and six children were all lost.

The body of a child, dressed in night clothes, was taken from the river at Mound City.

Among the first bodies recovered was that of Captain Wesley Doss, of Cincinnati.

The fire was discovered at 4:05 a. m. There were 70 passengers and 70, all told, in the crew. A partial list of those saved is as follows:

Partial List of Those Saved.

A little girl named Sweeney, of Owensboro, Ky.

L. L. Hunter, Lititz, Pa.

Two cooks and two chambermaids and most of the deckhands.

Fire Started in a Forward Hatch

The fire started in the forward hatch larboard and burned fiercely, and when the steamer ran ashore escapes were made over the cabin railing.

Very few passengers or members of the crew were aware of the fire until it was too late.

The captain and clerk late last night claimed in all 80 persons have been accounted for, leaving 60 people lost or unaccounted for.

The steamer Maud Kilgore, Captain Cole, brought the survivors to this place at 6 p. m., and the several societies of the city rendered all assistance in the way of clothing, etc.

Cincinnati, April 21.—When the steamer City of Pittsburg left for Memphis she had 31 passengers and a crew of more than 60. The local officers of the packet company say that some of these passengers have since reached their destination and others had been taken aboard during

New Way of Using Chamberlain's Cough Remedy.

Mr. Arthur Chapman, writing from Durban, Natal, South Africa, says: "As a proof that Chamberlain's Cough Remedy is a cure suitable for old and young, I pen you the following: A neighbor of mine had a child just over two months old. It had a very bad cough and the parents did not know what to give it. I suggested that if they would get a bottle of Chamberlain's Cough Remedy and put some upon the dummy teat the baby was sucking it would no doubt cure the child. This they did and brought about a quick relief and cured the baby." This remedy is for sale by Alvin H. Bulger.

CAPITAL ABOUT \$200,000,000.

This Sum About Represents the Prop-
erty Absorbed—Working Capital to
Be Provided—How Ship Subsidy
Bill, if Passed, Would Effect It.

Philadelphia, April 21.—Clement A. Griscom, president of the International Navigation company, one of the five trans-Atlantic steamship companies which have been merged under the direction of J. P. Morgan, yesterday talked freely concerning the consolidation, its purposes and probable effects. Mr. Griscom said he was unable to speak definitely regarding the financial plan, as that was a matter for the consideration of Mr. Morgan and his partners, which will perhaps be decided upon within the next two weeks. In any event, President Griscom said, the consolidated companies would probably be in operation under the new conditions within a few months.

So far as the negotiations regarding the merger are concerned, they have been completed. Agreements for a controlling interest in each of the various lines have been secured and all that now remains to be accomplished is the organization of the holdings of the parent company. This matter is now in the hands of J. P. Morgan & Co. and their lawyers.

May Be Made Parent Company.
It is possible, though by no means certain, that the International Navigation company, whose chartered powers are very broad, will be made the parent company. The question now under consideration is the desirability of this plan as against the organization of an entirely new company to control the operations of the combined steamship lines. The published statements as to the financial basis of the combine, Mr. Griscom said, were entirely speculative, as that detail had not as yet been completed.

Mr. Griscom further said in part: "The capitalization of the consolidated companies will be in the neighborhood of \$200,000,000, which sum about represents the property absorbed. Working capital,

Work While Life Lasts

By HENRY CLEWS, Wall Street Banker and Broker

HEN should a wealthy man retire? I THINK IT BEST FOR A MAN TO RETAIN AN INTEREST IN HIS BUSINESS, IRRESPECTIVE OF AGE OR THE AMOUNT OF MONEY ACCUMULATED, AS LONG AS HIS VITALITY HOLDS OUT. It will certainly hold out the longer, in my opinion, if a man retains an interest in the work he has been brought up to do. By being in business a man is kept alert, and alertness is the zest of life. A cheerful occupation keeps a man's habits good, and health is improved thereby.

or course, will be provided, and the profits and reserve fund should enable us to build the necessary additions to our fleets. While control of the company will be held in this country, it will be a strictly international organization, fostering the various companies included in the consolidation, preserving their autonomy and respecting their national and local surroundings.

Better and Cheaper Service.

The object of the combination is to try to give better trans-Atlantic service at decreased cost. Heretofore the trade has been extravagantly conducted and we propose to operate more intelligently in the future. We expect in time to inaugurate a system of daily departures from New York, an innovation that is a real necessity.

There is no political significance in this deal. The negotiations have covered a period of many years and I was interested in the subject as far back as 1884. The passage of the ship subsidy bill would have but one effect, so far as the new enterprise is concerned. It would enable us to sail ships now building and hereafter built under the American flag on an equal footing with the ships of other countries. The published statements that the ship subsidy bill would enable us to sail our foreign vessels under the Stars and Stripes are incorrect as the bill specifically states that only American built ships can benefit by its provisions, and, furthermore, such a course, if possible, is contrary to the whole scheme.

Would Benefit Four Vessels.

We have existing only four small vessels that might benefit by the passage of this bill, and they are on the Pacific. While in the coastwise trade, in which they are now engaged, the provisions of the bill would not apply to them. After our present mail contract expires the four American trans-Atlantic liners of the International Navigation company are eligible for a new contract, either under the present postal law or under any new act that might be passed by congress.

MURDERED BY HIGHWAYMEN.

Two Negroes Shot and Killed Alexander McNaught Near Greensburg.

Greensburg, Pa., April 21.—Alexander McNaught, 22 years old, was shot and almost instantly killed by two negro highwaymen on the Pennsylvania railroad near the Hempfield slope, east of here, at 2:30 o'clock Saturday morning.

Frank McQuillips, a companion, received a bullet wound of a rather serious nature in the thigh.

Two negroes, Edward Hill and Joseph Smith, were arrested at the Jamison works, four miles from here. On being brought to jail here they were jeered by a crowd that talked lynching, but were not hurt.

They positively deny any participation in the murder and claim that they can easily establish an alibi. They allege that they were at Altoona Friday night and arrived at Jamison at 8 o'clock Saturday morning. They claim to live at Harrisburg. Charles McQuillips, the young man who was robbed of money and watch, came to the jail Saturday night, but failed to identify the prisoners.

D. W. Hethenthal, who followed the footprints of the murderers from the scene of the killing early Saturday morning to Jamison, where the strange negroes were captured, made a critical examination of the shoes of Hill and Smith, but declared that they did not fit the impressions made on the road.

Wintering in Colorado And Utah.

The climate of Colorado and Utah has long been world famous, but it is only within recent years that attention has been given to the delightful winter climate of these states. Today physicians all over the United States send their patients to Colorado and Utah to escape the rigors of eastern winters and to benefit by her invigorating atmosphere and health-giving sunshine.

It is not necessary to add an elaborate argument—the conclusion is self-evident and inevitable. The winter climate of Colorado and Utah on the whole presents advantages for the invalid and the pleasure-seeker that cannot fail to command attention.

An erroneous impression prevails that because the Rocky mountains have a high elevation the mercury in the thermometer drops down below zero in the winter season and stops there, and that the snow mounts up with the altitude. The fact is that the average precipitation of moisture in the lowlands of the mountain region during the entire year is only 14.15 inches. With such average precipitation there is practically no danger of snow blockades on the railroads, save at a few points exposed to drifts and these points have been amply protected. This is especially true of the lines of the Denver & Rio Grande and the Rio Grande Western between Denver and Ogden at all seasons of the year. Facts speak for themselves, and the fact is that travel over "The Scenic Line of the World" has gone on with less interruption from snow blockades during the last ten winters than it has upon the majority of railroads in other localities which are popularly supposed to be more free from such delays than the mountain systems. TWO CENTS.

WARRANTS ARE BEING SERVED ON INDICTED SALOON MEN

Official Announcement of Alleged Offenders in East Liverpool.

COUNTS AGAINST GUTHRIE

Number Five and Charles Parker, James Forrest and Others Are on the List.

DEPUTY ALLISON'S SUCCESSOR

E. P. Speidel, a Hanoverton Teacher And Lawyer, Will Perform the Work Hitherto Entrusted to the Man Who Has Been Indicted.

Lisbon, April 21.—(Special)—The following indictments by the grand jury are given out from the clerk's office, warrants having been served on the defendants:

Ernest Foster, East Liverpool, one indictment for Sunday selling.

Aaron Guthrie, East Liverpool, keeping open on Sunday and Sunday selling, four indictments.

Charles Parker, East Liverpool, two indictments for selling to minors.

John Robinson, East Liverpool, eight indictments for Sunday selling.

James Forrest, East Liverpool, one indictment, Sunday selling.

Samuel Conkle, Salem, two indictments for permitting gambling.

Mont Cook, Salem, two indictments for gambling.

William Fisher, Washingtonville, seven indictments, selling to minors and other violations.

Although Sheriff Leonard was in East Liverpool and Wellsville on Friday, no indictments of Wellsville people are yet given out. The sheriff is in Salineville today.

E. P. Speidel, of Hanoverton, will perform the duties of Deputy Sheriff Lawrence Allison for the next few weeks. Speidel has already been sworn in as a deputy, being one of Sheriff Leonard's appointees last January. Mr. Speidel is a school teacher in Hanover township and also practices law.

THE SCALE SIGNED

Wages of East Liverpool and Rock Springs Railway Employees Fixed For a Year.

There will be no trouble on the East Liverpool and Rock Springs railway this year, for the new scale has been signed by both the men and the company. C. A. Smith, president of the company, though ill at his home in Pittsburgh for over a week, had the new proposition sent to him by mail from his office in this city, and it was returned signed. Saturday evening a committee composed of President Koynier, Messers. McKinnon, Allison and McKinnon, called at the office of the company, and there the signatures of the officers of the local were affixed. The members of the street railway men's division No. 52 are loud in their praise of the fair and speedy settlement given them by Mr. Smith, nothing like it ever having been done in the city before.

FOR REPRESENTATION

Ex-Senator W. V. Blake, of This City, Candidate for Legislative Honors.

Ex-Senator William V. Blake, of this city, has been urged by his friends to become a candidate for representative to the legislature from Columbian county and has consented to enter the field for the nomination a year from now. His friends point out that Mr. Blake's experience as a legislator, his wide acquaintanceship and his past record all combine to make him a strong candidate.

THE BURNED PACKET

Steamer City of Pittsburg a Boat Well Known in This City.

The news of the total destruction of the large side-wheel packet, City of Pittsburg, yesterday morning, was received with regret in this city. Not only was this the case with the river men, but with a number of other persons who have made trips on the boat.

On the morning of March 23, 1899,

this large boat, which had been built at Marietta, tied at the local wharf boat, which was burned two years ago. There were hundreds at the wharf on that chilly morning, awaiting the arrival of the boat, which was considered to be the finest packet on the river. At last the boat came, and those who were at the river bank well remember the trouble the officers of the boat had in trying to make a landing, because of the stiff wind. The boat made a number of trips between Pittsburgh and Cincinnati, but was found to be too large to operate on the upper Ohio and was soon transferred to the southern river trade.

While the boat did operate on this part of the river, many were the parties of young folks who made trips from this city to Smith's Ferry and from here to lower Wellsville, just for the ride.

VETERANS' REUNION

FEW G. A. R. MEN TO GO FROM HERE TO LANCASTER.

Candidacy of Captain Minturn for Department Commander Strongly Supported.

From present indications very few of the members of General Lyon post, G. A. R., will attend the department encampment at Lancaster next month. Post Commander Daniel McLane and Mr. Anderson have decided to make the trip, but aside from these no others have announced their intention of going.

The Sons of Veterans, whose division encampment is at the same time and place, have about completed their arrangements, and no less than 50 members will attend. The party will leave this city on Monday morning, May 1. They will return Friday night.

Captain William H. H. Minturn, of John A. Fowler post, No. 366, New Lexington, is a candidate for department commander, and members of General Lyon post who know him state that he has an excellent chance to win. Captain Minturn enlisted as a private April 21, 1861, and on August 11, of the same year, was made quartermaster sergeant. He received the rank of second lieutenant May 9, 1864, and was discharged as a captain July 9, 1865.

A paper issued in the gentleman's own town has this to say of his character and qualification for the position:

"As a Grand Army man, we want to say if any other old soldier has the welfare of his comrades more at heart than Captain Minturn, we fail to note that man. In a word, no man in Ohio has given more of his time, or according to his ability, more help to the old soldiers than just this same Captain W. H. H. Minturn. He is a lawyer of ability and none stands higher at this bar; he is a Christian gentleman, a man of intelligence and education and rivals the greatest as an orator, and as a public speaker he has no superior in this country. He is in every way qualified for this office, and if it is to be given on merit alone, none stands a better chance than our distinguished, faithful, good old Grand Army comrade, Captain W. H. H. Minturn."

RUNAWAY BOYS

THREE FROM THIS CITY ARRESTED IN PHILADELPHIA.

Left Here on Wednesday And Were Following a Theatrical Troupe.

Chief of Police Thompson received a telegram this morning from Harry M. Quirk, superintendent of police in Philadelphia, stating that three runaway boys from East Liverpool had been arrested in that city.

The names of the boys Chief Thompson would not divulge, but stated that the father of one of them had made arrangements for his transportation home, while the other two will be left on the mercy of the Philadelphia authorities.

The boys left home last Wednesday and it is said were following a theatrical troupe.

Two of the boys found in Philadelphia are said to be Harry, son of Charles Gamble, employed in a local pottery, and Lloyd Miller, a son of Constable Miller. The name of the boy whose father has made arrangements for the transportation home remains unknown.

REV. DR. FRANK DE WITT TALMAGE.

This young man, who will carry on the work of his famous father, the late Rev. Dr. T. De Witt Talmage, is about 35 years of age and is pastor of the Jefferson Park Presbyterian church, Chicago. He is a forceful and eloquent preacher and a great future is predicted for him.

LEAPED IN RIVER TO AVOID ARREST AN EXCITING FIGHT IN STATE PRISON

Frank Gray Took Desperate Chances, and All to No Avail.

Lisbon Convict and a Cellmate Engage in a Fierce Battle.

THE WATER WAS COLD A WOMAN WAS THE CAUSE

And He Did Not Remain in It Long. When He Came Forth Officer Saulsberry, Who Was in Waiting, Promptly Nabbed Him.

Extra Money for the Eighth Regiment Boys Nearly Ready to Distribute. Finance Committee's Budget Prepared—Larger Than in 1901-2.

On account of an inborn dislike of hearing the grating sound produced by the closing of cell doors, behind him, Frank Gray took desperate chances Saturday night to escape the clutches of the law, and incidentally the clutches of Police Officer Saulsberry by taking a long run and jumping into the river at the foot of Broadway.

Gray was drunk and fighting on Third street when interrupted by the sight of the officer. He was, however, nimble footed, and at the first glimpse of Saulsberry started on a 2:40 gait toward the river with the officer in close pursuit. Arriving at the water's edge Gray hesitated for a second, but when the thought of a night behind the bars recurred to him he pondered no longer and made a daring leap far out into the water.

Officer Saulsberry quickly realized the situation—he knew the man would not go far—and taking a comfortable seat under the bank, waited for him to finish his bath. He did not wait long, for when the water began to soak Gray began to shiver, and reluctantly walked out into the hands of his pursuer.

Gray was immediately transported to the city hall by the aid of the patrol wagon and given a change of clothing; also a place to rest. Sunday morning he produced \$10 and was released, but will appear before the mayor this evening with the two charges against him.

A SALE DESIRED

More Litigation Over the Insolvent Valley Gas Company's Affairs.

Lisbon, April 21.—(Special)—W. K. Gaston, as receiver of the Valley Gas company, of Wellsville, has filed a petition in which H. B. Nicholson, trustee for a number of creditors of the company, is made defendant.

The petition states that as Nicholson claims a lien on the property of the company, the receiver is unable to sell the same. He asks that the court give directions concerning the sale of the insolvent company's property.

BOYS ARRESTED

Three Lads Charged With Stealing a Pistol in Front of a Store.

Three boys, whose names are withheld by request of the police, were arrested Saturday night by Officer Dawson for stealing a toy pistol from a show case in the J. G. McCrary store on Sixth street.

The boys are very young and of prominent families. They will be given a hearing this evening before Mayor Davidson.

A BIG SEWER PIPE PLANT TO BE BUILT NEAR THIS CITY

period he served at Camp Bushnell before entering the volunteer service.

Those of higher rank will receive sums equivalent to the rate paid them while in the service. Captain Hill, commander of Company E, gets in the neighborhood of \$60. All the sergeants, except the first sergeant, who will receive a little more, will get \$9.79, and the corporals will receive a couple of dollars or so less, and so on.

For every dollar allowed the soldiers, Colonel Tolford receives 20 cents. As the grand total to be distributed approximates \$80,000, he will receive a very fat fee for his trouble. No one begrudges him it for the reason that it is doubtful if there is another person in the state who could have prevailed upon the federal government to allow the claim. It is a clear gift to the soldiers, made available by a peculiarly constructed section of a law.

The finance committee budget for the last three-quarters of 1903 and the first quarter of 1904 has been practically completed by the house finance committee. It is about \$400,000 above that appropriated for 1901 and 1902. It carries an appropriation of nearly \$5,000,000. It is reported that another municipal code bill, drawn by ex-Senator James R. Garfield, may be introduced in the house at this session. The measure is the original in a modified form.

FEAST OF PASSOVER

HEBREW OBSERVANCE COMMENCES THIS EVENING.

Appropriate Services Will Be Held. The Jewish Leap Year.

The Jewish Feast of the Passover will be observed this year, commencing at sundown this evening. The event is three weeks later than last year on account of the Jewish calendar being arranged according to the lunar months, making the present on a leap year, containing 13 months. The Jewish leap year occurs twice every seventh year, making their holidays nearly a month later. Last year the event was celebrated during Easter week.

The Hebrew feast of the passover was inaugurated by Moses in commemoration of the passing of the death angel over the houses of the Israelites in Egypt the night of the destruction of the first born of all Egyptians, immediately preceding the exodus of God's chosen people from that country.

Originally the festival was observed by sacrificing lambs toward evening of the 14th of the first Hebrew month, now Nisan, and eating them on the following evening, as well as excluding all leaven from the bread eaten on that evening and the following seven days, the first and last of which were observed as holy.

Since the final destruction of the temple at Jerusalem the passover has been observed by eating unleaven bread during the seven days, by the abstinence from work on the first and last days, and by the observance on the first evening of various domestic rites, commemorative of the deliverance from Egyptian bondage.

In all homes of Hebrews in this city services will be held this evening, while in the larger cities services are conducted in synagogues.

Base Ball Games.

The West Market Street Juniors Saturday defeated the Meredith's club by a score of 26 to 15.

The Pleasant Heights team were victorious against the sixth grade team of the Sixth street school, Saturday, by a score of 8 to 16.

The third team of the Y. M. C. A. on Saturday defeated the Crockery City Junior team at base ball. Score, 17 to 3. Physical Director Stephens umpired the game. The same teams will play again next Saturday.

Sale of Realty Confirmed.

Lisbon, April 21.—(Special)—Eliza Bardo, as executrix of William Bonsall, reports the sale of realty in Leonardtown. The sale is confirmed.

Circulating Vile Literature.

Salineville, April 21.—(Special)—Among those on whom Sheriff Leonard served subpoenas today was J. W. Duncan, charged with distributing obscene literature.

Work on One of the World's Largest Factories Soon to Start.

PLANS NOW BEING DRAWN

The Concern Will Include Practical Men, Independent of the Trust.

BACKED BY AMPLE CAPITAL

Not Less Than 25 Kilns to Be Built. Scheme Has Progressed So Far That Orders for Machinery Will Soon Be Placed.

It was definitely announced this morning that one of the largest sewer pipe factories in the world, if not the largest, would be built in this vicinity within the coming summer. In fact, the matter has progressed so far that the plans are now being made by a Pittsburgh architect, and are expected to be received in this city within the next two weeks.

Several meetings of the parties interested have been held within the past month, and the order for the plans were placed about two weeks ago. It is impossible at this time to give the names of the persons interested in the new company, but the authoritative statement has been made by one of the interested parties that the plant will be built by practical sewer pipe and brick manufacturing men, whose reputation in this section and all over the country has been established for years. There is ample capital back of the new concern, and when built the factory will be operated independent of the sewer pipe combine.

One of the men who is interested in the new company and who will most likely be general manager of the plant, said today that not less than 25 kilns would be built. The main building would be three stories in height and would be built of brick. The most modern machinery obtainable for this kind of work is to be purchased. This end of the proposition has progressed so far that an order will soon be placed for the engines and presses. Employment will be given to over 100 men, and as far as possible workmen from this city will be employed.

From another source it has been intimated that some officials of the sewer pipe combine located at factories between this city and Toronto are to be interested financially in the new concern.

PLATTS' NEW PLACE

Former Y. M. C. A. Secretary Gets a Call to an Allegheny Church.

Residents of East Liverpool and vicinity will no doubt be glad to learn of the recent promotion of Rev. J. A. Platts, of Mingo Junction, who was formerly secretary of the local Y. M. C. A. He has recently received a call to the Central Presbyterian church, at the corner of Lackaw and Anderson streets, Allegheny, Pa. He has been the pastor of the Mingo Junction Presbyterian church for the past two years, having left this city at that time.

Rev. Mr. Platts has announced that he will accept the call and will leave for Allegheny as soon as he receives his letter of dismissal from the presbytery in which he is now preaching.

The congregation of the Allegheny church at a recent meeting decided to give their new pastor \$2,000 a year and six weeks vacation each year on pay.

Wants 30 Feet of Land.

Lisbon, April 21.—(Special)—Margaret Orr, of Wellsville, has asked that she be allowed to recover possession of 30 feet of land which, she says, Jeannette Miller appropriated without right. This land extends from Third street, Wellsville, to the bridge across Little Yellow creek. She asks also such other relief as the court may deem proper.

Funeral of a Child.

Funeral services over the remains of an infant son of Mr. and Mrs. Martin Bower, Rural lane, were held Saturday afternoon at 4 o'clock. Interment was made at Spring Grove cemetery.

EAST END**RIGHTS OF WAY SECURED**

No Obstacle in the Way of Extending Street Railway to Smith's Ferry.

There was a well founded report in the East End this morning that after several weeks of hard work the officials of the East Liverpool railway company had at last secured the right of way to lay their tracks for the new extension to Smith's Ferry over the Beaver creek bridge. This will be good news to the residents of Smith's Ferry, as there will be no delay in extending the line from the East End to Smith's Ferry on account of the company being compelled to build a new bridge.

It was stated that the right of way to lay a track over this bridge was held by J. L. B. Dawson, of Beaver Falls, a well known politician of Beaver county. An arrangement has been made with Mr. Dawson by the street railway company, whereby the local company secures the privilege of crossing the little Beaver bridge.

Mr. Dawson is one of the owners of an extensive lot of property in the vicinity of Smith's Ferry, the purpose being to convert this land into a park as soon as the street railway company completes its extension to Smith's Ferry.

FROM DOWN THE OHIO

Another Contingent of New Residents Arrives at Chafin-ville.

The southern boats, as they landed at the local wharf yesterday morning and afternoon, were again the cause of an increase in the population of the East End, more particularly Chafinville. It was said in the East End this morning that not less than 25 persons located in that part of the city yesterday, and among the number were three families who brought their household effects with them. This morning these families started to find new homes, but as practically every house in the East End and even Chafinville is occupied, there will be some trouble in these people finding a suitable home.

Alex Chafin on Saturday made the statement that he knew a large number of new residents were to locate in the East End yesterday, but the number that arrived exceeded his expectations. The male members of the party expect to secure employment in the East End sewer pipe works.

SALES OF PROPERTY

Georgetown And East End Real Estate Has Changed Hands.

Announcement was made this morning that the Thomas Kinsey property at Georgetown, controlled by several Salem bankers, had been sold Saturday to T. J. Laughlin, of Georgetown. The consideration was \$450.

The property on First avenue, East End, owned by Mrs. Mary Shenkle, was sold Saturday evening to Mr. and Mrs. Charles Roberts, for \$1,800. Immediate possession was given.

Buggy Upset.

Harvey Wolcott and William Hays, of the East End, in order to break an attack of spring fever, procured a buggy yesterday and took a trip to Smith's Ferry. The horse was allowed to walk leisurely along the road and it commenced to climb the hill road just above Smith's Ferry. Result: Buggy upset, men thrown out; no one was injured.

EAST END AFFAIRS.

The Junior League of the Erie street M. E. church will give a social in the P. H. C. hall on First avenue Thursday evening.

James Wheatley, of Ohio avenue, who has been seriously ill at his home for several weeks, suffering with hemorrhages, is able to be out.

The Junior League of the Erie street M. E. church will meet tomorrow evening at the residence of William House, on Pennsylvania avenue.

The trustees of the Erie street M. E. church will hold an important meeting in the church tomorrow evening, when matters concerning the benevolences of the church are to be considered. Other business matters

Two very interesting sermons were heard at the Second U. P. church yesterday morning and evening from Rev. Mr. Nicholls, of Allegheny. The services were well attended during the day.

Justice L. W. Carman has returned to the East End from a four-days' trip through Washington county, Pa., where he went for the purpose of securing options on a lot of coal lands in that section for a Cleveland firm. He would not state this morning how many acres he had secured control of.

AN OLD MAN ACCUSED

Lodged in Jail Charged With Killing Chauncey Hickox at Garrettsville.

Ravenna, April 21.—Wesley Bancroft, of Garrettsville, was lodged in jail charged with the murder of Chauncey Hickox, who was shot and killed in the sugar camp near Garrettsville on March 27. The investigation at that time placed suspicion on Bancroft, who had been in the employ of Hickox, but as sufficient evidence did not develop, detectives were placed in the vicinity and the arrest last night was the result. The prisoner is 69 years of age and has carried a bold front while under suspicion, strongly denying any knowledge of the crime. This morning when visited by the prosecutor in jail he had lost much of his nerve and may make a confession.

A message from Mantua last night stated that Sheriff John Goodenough had dug from the cellar the hoarded gold of William Vaughn, the alleged murderer of his stepmother and her mother. The amount is over \$2,000, all in gold. A special grand jury will be summoned tomorrow to investigate both the Bancroft and Vaughn murders.

SAVED HIS GRANDSON

But Lost His Own Life in the Effort. Killed By a Train.

Wheeling, April 21.—David Anderson, an aged citizen of McMechen, sacrificed his life yesterday to save that of his grandson, to whom he was devotedly attached. The two were gathering driftwood along the Ohio river railroad tracks, and Anderson turned suddenly to see that the boy was on the track, with the "flyer" speeding toward him.

He started across the track, and succeeded in pushing the boy safely beyond the rails, but the engine bore him down, and he was crushed to death.

Tramp Shot and Killed.

Warren, April 21.—The tramp shot and killed at Leavittsburg was identified as P. R. Bardon, of Oil City, Pa. Erie Railway Detective E. R. Beaver, who is charged with the shooting, says he is innocent. He was released on bail.

A Taste of Brogue.

An Englishman met a man at a French place d'hôte, who addressed him in French. His accent betrayed him, and, rather rudely, the Briton said, "Ah, you are English."

"The devil a doubt of it, darlin'," replied the stranger.

"An Irishman, too, still better," went on the other.

"Well, thin, isn't it strange," said the man, "my French always shows me to be English and my English to be Irish?"

The First Step.

The children were having a writing lesson.

"Set me copy, too!" pleaded little Ronnie.

"But you can't write, dear!" the governess reminded him.

"Then set me some b'ots!" commanded Ronnie.

He evidently considered blots a step toward writing.—Home Chat.

Dinner Among the Romans. The Romans in the time of Cleopatra and Augustus took an early breakfast, from 3 to 4 in the morning, a luncheon at 12 or 1 and at about 3 o'clock the cena or principal meal of the day, corresponding with our dinner. Concurrently we read of some not dining until sunset.

RELIC HUNTERS

Searching the Country Where the Morgan Raiders Engaged in Battle.

Steubenville, April 21.—The finding of a bullet in a tree that was cut down on the Stephenson farm across the road from the Two Ridge church several days ago, has started relic hunters to work in a search for other like relics of the war supposed to be buried around that section.

The farm, now the property of Mr. Stephenson, was the scene of some lively firing in 1863 when the Morgan raiders held forth in that section. At the time the raiders appeared near Two Ridges, Frank Allen, who still lives in that neighborhood, was one of the real heroes who tried to stop their progress. Seeing them approaching from across the hill he secured his gun and left the house, determined that they should give an account of themselves before they proceeded over his property. In this action, however, he was misguided, and as he now says he was up against a long proposition. He was a courageous youth, though, and when Morgan's men came close to his house, he aimed and fired. Then he jumped behind a tree. It was a lucky move for him, as a second after he fired, a fusillade of bullets whizzed by. One of them lodged in the tree behind which he had taken refuge.

A few days ago the tree was cut down and when cut up the bullet was found imbedded almost in the center. It was removed and when weighed tipped the scale at the two ounce mark. The ball is now in the possession of Bert Nosman. The tree had grown to wonderful size since the leaden ball was sent into it, and when cut up 800 feet of good lumber was obtained.

Now it is believed that there are more relics in that vicinity and every course the raiders traversed is being inspected in the hope of finding something that might recall incidents of the trip through this section of the famous Morgan raiders.

Holst With His Own Petard.

A Philadelphia clergyman told a story of a young man who took his best girl to church and when the time for "collection" came round rather ostentatiously displayed a five dollar gold-piece. Presuming upon the engagement to marry that had been made by her, the young woman placed a restraining hand upon the arm of her fiance. "Why, don't be so extravagant, George!" she exclaimed.

"Oh, that's nothing," he replied. "I always give \$5 when I go to a strange church."

Just then the deacon came with the plate, and George dropped a coin. Everything seemed favorable, and the young man beamed with a sense of generosity. Then the minister made the announcements for the week and concluded with the wholly unexpected announcement of the day's collection.

"The collection today," said he, "was \$3.75."

George hadn't much to say all the way to his fiancee's home.

Breathe Through Your Nose.

In all kinds of atmosphere the breath should only be inhaled through the nose. An occasional breath of extra pure air through the mouth may be good, but in cars and in most offices and rooms nose breathing is essential.

A second rule is, since so much time is spent in cars and offices and rooms in earning a livelihood and since these places are overheated and underventilated—the heating and ventilation being out of the control of most of us—we must take in fresh air whenever possible in order that we may restore the balance. The best times to do this will be early in the morning, when the air is freshest, and late at night, when deep breathing will help us to get sleep. We may breathe correctly while we are waiting in a street and especially where streets meet. We can soon form an automatic habit of breathing properly on such occasions.

ARABIAN COURTSHIP.

Sword Secrecy Envelops the Wooing and Winning of the Girl.

An Arab loves as none but an Arab can love, but he is also mightily exciting and easily won. An Arab sees a girl bearing water or brushwood and in a moment, almost at a glance, is as madly in love as if he had passed years of courtship. He thinks of nothing else, cares and dreams of nothing else but the girl he loves, and not infrequently, if he is disappointed in his affection, he pines and dies. In order to commence his suit he sends for a member of the girl's tribe and, first insuring his secrecy by a solemn oath, confesses his love and entreats his confidant to arrange an interview.

The confidant goes to the girl, gives her a flower or a blade of grass and says:

"Swear by him who made this flower and us also that you will not reveal to any one that which I am about to unfold to you."

If the girl will not accept the proposal, she will not take the oath, but nevertheless keeps the matter perfectly secret from all. If she is favorably disposed to the match, she answers:

"I swear by him who made the flower you hold and us," and the place and time of meeting are settled. These oaths are never broken, and it is not long before the ardent lover becomes the happy husband.

Napoleon's Talisman.

Louis Napoleon, who believed him self, even amid exile and poverty, destined to that throne which the prestige of his name and his cunning coup d'état enabled him to reach, was not without his superstitions. In his will he says, "With regard to my son, let him keep as a talisman the seal I used to wear attached to my watch."

This talisman had no power to turn aside the fatal spears of the Zulus, and the young Napoleon met a sadder fate than his father's worst fears could have imagined for him.

F. R. STOCKTON DEAD

The Noted Novelist Expired Suddenly, In Washington, D. C.

PARALYSIS CAUSE OF DEATH.

It will Likely Be Considered by the House the Latter Part of the Week.

Washington, April 21.—The early part of the coming week in the house of representatives will be devoted to routine business with a prospect that some important general legislation may be taken up during the latter part of the week. Today will be devoted to District of Columbia business. Tuesday to war claims and Wednesday to the oleomargarine bill, which was amended by the senate. During the remaining days of the week it is practically settled that the anti-anarchist bill of Chairman Ray, of the judiciary committee, will be considered. The measure is much more stringent than the anarchist bill passed by the senate. Plans also are foot for considering the omnibus business public building bill during the latter days of the week. This measure has not been reported from the house committee on bills and grounds, but it probably will be completed early this week, so that it can be taken up later in the week. Beyond this no exact program has been arranged. Two appropriation bills, the agricultural and naval bills, are about ready and may be brought in at any time, and the military academy appropriation bill is on the calendar.

Washington, April 21.—Mr. Frank P. Stockton, the well-known novelist, died suddenly here Sunday morning from hemorrhage of the brain. The cause of Mr. Stockton's death was paralysis immediately resulting from a hemorrhage in the brain. He was a guest at the banquet held Wednesday night of the National Academy of Sciences, when he was taken suddenly and mysteriously ill. The ailment did not at that time appear to be serious, and for a while the sufferer seemed to be improving, but a change for the worse came Sunday morning and death occurred at 11 o'clock. By his bedside when the end came were his wife, who was a Miss Tuttle, of Virginia, and her sister. He was 68 years old. The body will be taken to Philadelphia for interment. No further funeral arrangements have been made as yet.

Mr. Stockton had spent the past winter in New York, and had done very little literary work, preferring to rest. After a visit of nearly a month to Atlantic City, he came to Washington so that he might attend the banquet of the Scientists, intending then to go to his beautiful home in Charleston, W. Va.

Mr. Stockton was a Philadelphian by birth, in early life was an engraver and draughtsman, but soon abandoned this occupation for journalism. Many years ago, however, he retired wholly from newspaper work and devoted himself to literature. His reputation as a story writer was world-wide.

SAMAR NATIVES TREACHEROUS.

Unequalled In History of Warfare, Said Gen. Smith—Awful Hardships of Troops.

Manila, April 21.—General Jacob H. Smith, who was in command of the American forces in the island of Samar at the time Major L. W. T. Waller, of the marine corps, is said to have executed natives of that island without trial, was to have gone home on the Buford, which sailed yesterday, but has disembarked here.

Orders have been received here from Washington to hold a court of inquiry into the general conduct of affairs in Samar. General Smith claims that to the best of his belief, the officers and men of his command in Samar had to face insurmountable difficulties, that the hardships they encountered were almost unbearable and that the treachery of the natives of the island is unequalled in the history of warfare. He says that the American soldiers acted, in the circumstances, with the greatest forbearance shown in the war in the Philippines. He expressed his doubt if the troops of any nation in the world would or could have acted in the circumstances in Samar as well as did the Americans.

REBELS SURRENDERING.

Gen. Rufino and Men Gave Up, In Mindanao.

Manila, April 21.—Surrenders to the American authorities of small parties of insurgents are reported daily, and these have increased since the recent surrender of the insurgent General Malvar.

General Rufino, with 26 officers and 375 soldiers, has surrendered to the native constabulary in the province of Misamis, in Mindanao, where the constabulary are co-operating with the military.

These three were Harry Rogers, Richard Roan and Glen Fenton. The two first were killed instantly and the third was rendered unconscious for some time.

THE ANTI-ANARCHIST BILL.

It will Likely Be Considered by the House the Latter Part of the Week.

Washington, April 21.—The early part of the coming week in the house of representatives will be devoted to routine business with a prospect that some important general legislation may be taken up during the latter part of the week. Today will be devoted to District of Columbia business. Tuesday to war claims and Wednesday to the oleomargarine bill, which was amended by the senate.

During the remaining days of the week it is practically settled that the anti-anarchist bill of Chairman Ray, of the judiciary committee, will be considered. The measure is much more stringent than the anarchist bill passed by the senate. Plans also are foot for considering the omnibus business public building bill during the latter days of the week. This measure has not been reported from the house committee on bills and grounds, but it probably will be completed early this week, so that it can be taken up later in the week. RIVER AND HARBOR BILL.

It is to Be Taken Up in the Senate Today.

Washington, April 21.—The senate will begin the week by taking up the river and harbor appropriation bill today, and when that measure is disposed of will resume consideration of the Philippine government bill. It is not expected that much time will be required to get the river and harbor bill through the senate, as it is generally approved by senators. Senator Frye, chairman of the committee on commerce, who has charge of the bill, yesterday expressed the opinion that there would be no debate on the bill and that it would pass as soon as it could be read. It is now understood that Senator Rawlins, senior Democratic member of the senate committee on the Philippines, shall lead off in the speechmaking in opposition to the Philippine bill, to be followed by other members of the committee and other Democratic senators. The opinion is expressed that the bill will be before the senate for at least three weeks.

REPLIED TO GROSVENOR.

Weeks Admitted Saturday Motive Was to Kill Reciprocity Bill.

Washington, April 21.—While the fortification appropriation bill was under consideration in the house Saturday Mr. Grosvenor, of Ohio, one of the ways and means leaders, said that the amendment which the opponents of the ways and means committee had engrafted upon the Payne bill not only wiped out the differential on sugar, but also did away with the countervailing duty of the Ding-ley law.

Mr. Weeks, of Michigan, made a spirited rejoinder in behalf of those who opposed the ways and means committee. He frankly conceded that the motive of the opposition had been to kill the reciprocity bill. The fortification appropriation bill was passed and the conference report on the legislative appropriation bill agreed to.

60 PENSION BILLS PASSED.

Senate Saturday Construed Dependent Act to Include 90-Day Men.

Washington, April 21.—In the senate Saturday numerous measures of minor character and nearly 60 private pension bills were passed. Eulogies were pronounced upon the life and character of James Henderson Kyle, late a senator from South Dakota.

Among the measures passed Saturday was one authorizing the expenditure of \$100,000 for a public building at Findlay, O., and a bill construing the dependent pension act of 1890 so as to include all persons who served 90 days during the Civil War and who were honorably discharged, but excluding those of the First, Second, Third, Fourth, Fifth and Sixth United States volunteer infantry who had prior service in the Confederate army of navy.

MAN'S GREATEST NEED TODAY

By EDWIN MARKHAM.
Author of "The Man With the Hoe"

MAN'S GREATEST NEED TODAY IS THE OLD, OLD NEED OF THE WORLD SINCE TIME BEGAN—LESS OF SELFISHNESS, MORE AFFECTIONATE JUSTICE FOR THE OTHER MAN. HUMANITY'S GREAT NEED IS THAT MEN SHOULD RISE OUT OF SELFHOOD INTO OTHERHOOD, SHOULD BLOSSOM OUT OF SELF SEEKING INTO SELF FORGETTING.

WE NEED TO FIND SOME WAY FOR MAKING THE GOLDEN RULE A WORKING PRINCIPLE. THIS GOLDEN LAW DEMANDS THAT MANY CHANGES BE MADE IN THE WORLD FOR HUMAN WELFARE, AND TO MY MIND CHIEF AMONG THE NEEDS THAT ARE PRESSING IS THE NEED THAT EVERY MAN AND WOMAN SHOULD BE SECURE IN THE RIGHT TO MAKE A LIVING BY LABOR. THE RIGHT OF MAN TO WORK IS A RIGHT THAT CIVILIZATION SEEMS TO HAVE FORGOTTEN. IN SOME WAY SOCIETY SHOULD SECURE TO EVERY EARNEST CITIZEN THE RIGHT TO WORK—MORE THAN THAT, THE RIGHT TO REST FROM HIS WORK.

Chicago, the center of the packing industry, appears more deeply aroused than any other city by the high prices asked for meat. Secretary Pritchard, of the health board of that city, advocates a boycott on the products of the beef trust, saying: "If a few thousand families in Chicago would do this, the enforced abstinance from meat would do them no harm and would not result in a lowering of prices. Certainly if the movement were large enough and honestly lived up to, it would prove more effective than any other influence I can think of in bringing the beef barons to time." Mr. Pritchard believes that, if properly promulgated, the movement will become national in scope. A Chicago trade journal, the Modern Grocer, asserts that there is little doubt that the price of meat is being manipulated. "The advanced prices of cattle and corn," this journal asserts, "do not seem sufficient to justify the exorbitant rates now charged. Moreover, the condition is a great hardship on the laboring people of the country, who have been obliged to curtail their consumption of beef. Decisive action is required." In other parts of the country the experiment of establishing meat markets independent of the trust is being tried, and it is possible that this will have its effect in time. Certainly if it is found that there is reasonable profit in the business, the trust will be brought to its senses in short order.

The neglect of the legislature to pass a municipal code bill may necessitate an extra session. This is the opinion of ex-Senator James R. Garfield and other good lawyers. The supreme court is quite likely to declare many of the laws enacted for the government of cities special legislation and therefore void. A measure that would render the so-called special legislation unnecessary as well as impossible would greatly diminish the work of the legislature besides meeting a popular want.

Canada, in order to force us to lower our duties, enacted a preferential tariff in favor of British goods. The only notable effect has been to let in about \$10,000,000 worth of cheap woolen goods last year, resulting in the closing up of a number of Canadian woolen mills. Low tariff kills home industry in Canada as well as here.

OBITUARY

James Bigger Hall.

James Bigger Hall, a prominent citizen, died at 1:10 this morning. He had been in poor health for the past five years, being afflicted with consumption. Mr. Hall was born near Murdocksville, Washington county, Pa., 60 years ago, on March 17. He came to East Liverpool in 1872, where he engaged in business as a carpenter and contractor, first as a member of the firm of Hanley, Hall & Co., and afterwards in the firm of Paul Anderson & Co. Mr. Hall was a member of the Presbyterian church. He is survived by his wife and adopted daughter, Mrs. J. T. Herbert. He also leaves three brothers and two sisters—John W., Robert and William H. Hall, and Mrs. Mary M. Stewart, of this city, and Mrs. Emma Stewart, residing near Fairview, W. Va. The funeral will take place at 1 p. m. on Wednesday from his late residence, 112 Kosuth street, Rev. C. G. Jordan officiating.

Mrs. Nancy Abrams.

Mrs. Nancy Abrams, aged over 60 years, died at her home near the Bell school house yesterday morning of paralysis. The funeral will be held Tuesday, interment being made at Long's Run cemetery. Mrs. Abrams was the wife of Buckley Abrams, well known in this city. Last Wednesday she suffered a stroke of paralysis and fell over a stove. In so doing she received severe burns from which she did not recover. Mrs. Abrams was born on the same farm upon which she died. She is survived by her husband and a brother, James Kinney, and a sister, Miss Louise Kinney, who for many years has made her home at the residence of Mrs. A. V. Kinney, of Washington street.

Mrs. Hattie Blazier.

Salem, April 21.—(Special)—Mrs. Hattie Blazier, aged 51 years, died at the home of Norman Blazier, in this city Sunday evening at 6 o'clock. Her home was in East Liverpool and she is the mother of several children, all of whom are living in that city. The remains will be shipped to her home tomorrow morning, where the funeral services will be held.

Bulah May Phelps.

Bulah May Phelps, aged eight months, died at the home of her parents in a small shanty boat in the Ohio river near the Globe pottery, Saturday evening of measles. The funeral services will be held this afternoon at 4 o'clock, interment being at Spring Grove cemetery.

POTTERY NEWS

Ambrose Cartwright, formerly of this city, but now an official of the Barberton Pottery company, in an interview, has said:

"You can state positively that this firm is not going into the pottery combination."

The statement was in answer to a question relative to the Barberton concern's opinion upon the matter of consolidation. It is a well known fact that the plans of the Akron companies with those of the Bradshaw's have received a serious blow by the action of the Barberton company. The reason as given out by the concern is that it can handle a greater amount of business and make more money by itself than when in combination with the three other companies. The meeting that was to have been held at Akron Saturday was declared off by the officials, and the matter rests just exactly where it did when considered last by the officials. It was learned Saturday that the promoters of the deal are John G. Ingalls and T. N. Cook, of the Akron China company, L. K. Force and R. H. Kent, of the Summit China company, and President Bradshaw, of the Niles Pottery company.

About a week ago it was thought that the plans of consolidation would speedily go through and the companies would come to an understanding, but the decision of the Barberton company has slightly interfered with its smooth career.

A writer for an eastern trade paper recently said: "Within the past five years there have been added to the capacity of East Liverpool potteries no less than 77 kilns. Twelve more are to go into operation within 60 days, making 89 in East Liverpool alone, to say nothing of the ten kilns put in operation at Wellsville within the past three years. There are 226 ware kilns in East Liverpool. These conditions give an increased capacity of about 45 per cent to this pottery center. But in addition to the increase here we have to add that of many new pottery towns within a radius of 50 miles—as New Castle, Niles, Lisbon, Salem, Sebring, Ford City, Canonsburg—about 70 kilns. There are still more under construction this spring—Barberton, Salineville, Youngstown—and a number hovering around in the air, looking for a free site with a bonus attachment.

The difficulty among the kilndrawers at the E. M. Knowles pottery has not been settled. The crew making a demand for an additional ten cents per day to cover street car fare, is still out. Others have been secured to take their places. Several of the men who made the demand did not hold membership in No. 17, and for that reason could not take their grievance into the organization for settlement. It is not likely favorable action would have been taken if they had, as it is a matter that would conflict with the uniform scale agreement.

A trades council with five locals was organized at Lisbon April 13, with 30 members. Each local is allowed six delegates. Officers were installed as follows: President, W. L. Arfingtaugh; vice president, John Eells; recording secretary, E. M. Sexton; treasurer, John Hartman; financial secretary, R. Green; inspector, A. Davis; sergeant at arms, H. Moore; trustees, D. B. Ewing, W. L. Porter, Thomas Francis.

The traveling men who have returned to the city during the week are preparing to go out again at once, deeming active work now important with the inauguration of genuine spring weather. They generally agree that it requires a greater effort to sell pottery this spring than for several seasons past, though they seem confident that brighter prospects are ahead.

D. E. McNicol arrived in New York from East Liverpool on Monday and went east. He was accompanied by his wife. They spent Sunday in Washington. Mr. McNicol has been a frequent visitor to the capital of the nation, but always on business, and says he saw more of the place during that one day than he ever did before. It was Mrs. McNicol's first visit there.

Little work has been done in the pressing department of the Diamond pottery since the holidays. For almost three months after Christmas scarcely two full pays were made by the employees of this department. Early in March business picked up to a slight degree, but has once more become slow. The pressers are now working less than half time.

It has just been given out that when the Thomas pottery at Lisbon commenced operations it was compelled to destroy nearly \$2,000 worth of moulds.

The moulds warped, and were unfit for use. Matters have been straightened out and the plant is working steadily. Almost all the ware made is being shipped and orders are plentiful.

The following persons have charge of the several departments of the Lisbon pottery: John Reed in charge of the burning, Harry Mulligan of the glaze placing. Price Coothman has charge of the biscuit end. The slip house is governed by A. J. Boyer. There was some trouble with the clay at first but it is working better now.

Word has been received in this city that a well known capitalist of New York would like to invest not less than \$25,000 in the pottery business. The capital is said to be private, and the desire to invest it is from direct sources.

A report was current at Lisbon during the past week that a new pottery was to be built during the summer. The name of E. J. Owen, of this city, was coupled with the statement.

George Brooks, who has been working on the glaze bench at Brunt's for some time resigned his position there Saturday, and this week will leave for Industry, where he will make his future home. Mr. Brooks will assume the management of a large farm near Industry, and within a short time the owner expects to begin to drill for oil.

Homer Huff, a kilnhand at the William Brunt, is still unable to work. He was compelled to quit his bench several weeks ago on account of an attack of rheumatism.

TROUBLE AT THE HOME

Mother-in-Law's Presence Objected to
And Police Aid
Invoked.

A man came hurriedly into a downtown restaurant at an early hour Sunday morning and asked the man behind the counter if he had seen anything of a policeman. It happened that Officer Houser was in the room at the time and he immediately asked what the trouble was and was informed that a man near the cemetery was trying to murder his family. Upon investigation he found that there had been "somthing doing" at the residence of W. F. Dennis on Spring Hill avenue, or rather the house owned by his mother-in-law, several hours previous to that time.

It appeared that on Saturday evening Dennis had come home to see his wife and found his mother-in-law present. Dennis is not very fond of this personage, and it is said that he immediately put her out of the house, her own property. It is thought that recent trouble between Mr. and Mrs. Dennis was all on account of the interference of Mrs. Dennis' mother.

Mrs. Dennis stated to the officer that she was very glad to live with her husband, and that there had been no trouble between them on the previous evening. The officer then left the house and is now searching for the man who sent him on the fruitless journey, whom, up to the present time, he has been unable to locate.

Several days ago Mrs. Dennis had her husband arrested on a charge of non-support of his minor children. The case was given a hearing before Squire MacKenzie in which the defendant was discharged with a severe reprimand, because of a lack of evidence on the part of the plaintiff.

More trouble may yet follow as a result of the Saturday night affair, as the mother-in-law intends to have

TOW BOAT GOT FAST

Fred Wilson Had Trouble at Wellsville—Enlarged Its Crew There.

The tow boat Fred Wilson, with a heavy fleet of coal bound for Louisville and Memphis, tied at the Wellsville wharf on Sunday morning. The officers of the boat came on shore and spent a few hours enjoying themselves and at the same time looking up men to work on the tow for the balance of the down river trip. They succeeded in securing the services of seven Wellsville boys at \$40 per month and expenses for the down trip.

When all were ready to resume the journey the bell rang, the wheel turned, but the vessel failed to move. Upon investigation it was found that the tows were struck on a bar that extends out in the river from a point a short distance below the landing place. They were compelled to stay at the landing until early this morning, when they resumed their journey.

A HORSE THIEF

Wellsville Authorities Looking for One Who Stole a Rig in Canton.

Wellsville authorities have recently received a communication from Marshal Ed B. Bone, of Canton, notifying the mto be on the lookout for a horse thief, who on the night of April 14, stole a light sorrel mare and a piano box buggy from the stable of J. B. Poorman in Canton. The horse is described as having a small star on forehead and weighing 1,100 pounds. A black set of harness was also stolen at the time. The buggy running gear was of dark red.

A big reward is offered for the apprehension of the thief and the recovery of the property. It is thought the rig came to this county from Canton.

Fined By the Mayor.

Two plain drunks were escorted to the city jail on Saturday evening. They gave their names as Patrick Kelly and T. J. Shirley, the former hailing from East Liverpool and the latter from Sebring. They were each given a hearing before Mayor Fog on Sunday and were fined \$1 and costs, the usual dose, which they paid and were released.

Deserted at the End.

William the Conqueror was a man of very gross habit of body and at the siege of Mantes was hurt by the rearing of his horse, the pommel of the saddle striking the king in the abdomen and causing injuries from which he died in a few days. Before his death he was deserted by all his attendants, who stole and carried off even the coverings of the bed on which he lay. The body remained on the floor of the room in which the king died for two days before it was buried by charitable monks from a neighboring monastery.

Typographical Errors.

American authors, no less than English, sometimes suffer for the sins of the printer. A line of Mr. Aldrich's which originally read "A potent medicine for gods and men" was misprinted "A patent medicine," etc. And Mr. Aldrich's equanimity was upset on another occasion because in a serious mood he wrote in one of his poems "Now the old wounds break out afresh" and was horrified to read that he had said "Now the old woman breaks out afresh."

She Paid.

"Dollar in a half for a marriage license!" exclaimed the colored applicant. Then, turning to the bride to be, "Lindy, does you think I is with it?"

"Well," was the reply, "hit do come mighty high, but I reckon I'll batter pay it, long ez I done come heah wid you!"—Atlanta Constitution.

TEST OF GAS MAKING

Experiment at Gas Apparatus And Construction Company Plant Soon to Be Made.

It was reported Saturday that the Gas Apparatus & Construction company would begin this morning the manufacture of gas, by its new process. Upon investigation this morning it was found that the two prime movers in the company had gone to Pittsburgh to attend to business matters pertaining to the plant. These gentlemen are H. H. C. Hammerton and A. W. Brown. It is now said that it will take at least two weeks to again get the plant in shape ready to begin operations.

A number of prominent business men of East Liverpool, Pittsburgh, Canton and Youngstown are heavy stockholders in the company. Several experimental tests of their process of making gas have been tried in the East Liverpool high school and have proved very successful.

STRUCK BY A CAR

The Hookstown Hack And Its Passengers Have a Narrow Escape.

J. W. Allison, of Hookstown, who drives a hack between Hookstown and Chester, narrowly escaped being run over by a Rock Springs street car at about 11:30 this morning near the park. He was bringing in a couple of women from Hookstown and when near the park attempted to cross the street car track in front of a street car which was running at a good rate of speed and was only a few feet away.

Allison knew the car was near, but did not know exactly how near. He thought he would risk it, however, and attempted to cross the track. The rear end of the wagon was struck by the front end of the car and was swerved around, but did not upset.

The most damage was done to the street car, as the wagon came in contact with a wire and in some way

burned off one of the motors under the car. The women were badly scared and somewhat shaken up but were otherwise uninjured.

OPTIONS NEARLY CLOSED.

It was announced in Chester this morning that the options the Pennsylvania Railroad company had on property from Chester to a point east of Georgetown would be closed May 7. Some property yet to be secured is located between Georgetown and the West Virginia state line.

GYPSIES IN CHESTER

A Band Encamped Near Rock Springs Has Been Ordered to Move On.

A band of gypsies which is now camped on ground owned by C. A. Smith, near Rock Springs park has been ordered off the property by J. A. Flood, but has thus far failed to vacate. The gypsies have been selling lace and telling fortunes to Chester citizens and have been declared a nuisance.

If they do not soon leave it is thought that the police will take the matter into hand and compel them to move on. They are a branch of the band that was recently camped in the East End.

Mrs. Cora Pilgrim and Mrs. Effie Pilgrim, both of East Liverpool, visited friends in Chester yesterday.

Miss Maggie Hague is very ill with an attack of the grip fever at her home in the country back of Chester.

Robert Beatty, of Chester, is engaged in moving his household goods today to Washington School House, where he will reside.

Miss Catharine Snowden, of New Brighton, arrived in Chester Saturday. She will visit her parents, Mr. and Mrs. W. D. Snowden, for several days.

Jeff Smith, who has been employed as gatekeeper at the Chester mill for several months, has not been at his post since last week, the morning the workmen quit work. It is said he is now at his home near Hookstown, nursing a bealed hand.

THE LAP OF LUXURY.

"What is meant by the lap of luxury?" asked a teacher of a class of little girls.

"Please, ma'am, I know," exclaimed the smallest of the lot, holding up her hand.

"Well, what is it, dear?" inquired the teacher kindly.

"It's when the cat steals into the ladder and licks the cream off the milk," responded the little one.

And the teacher on reflection wasn't quite sure that her pupil was wrong.

WHY THE CHURCH WAS CROWDED.
A certain little Flemish watering place much frequented by English and American visitors has two attractions, a Presbyterian church and a roulette table. At a recent service in the church it occurred to one of the "pillars" that it might be lucky to play the number of the hymn after the sermon at the roulette table. So he strolled out of the church and did so. It happened that the number of the hymn did turn up, and the lucky coup became the talk of the village for the rest of the week.

Next Sunday the church was crammed to the door. The pious pastor was rejoiced in heart. After a powerful address he gave out "hymn No. 27." The moment the words left his lips, to his consternation, there was a rush to the door, and he was left with a faithful handful to upraise their agitated strains of praise.

As for the rest, they made a bee line from the house of prayer to the house of play. It is said that their little adventure cost them all very dear.

MOTHER AT PRAYER.

Once, says a writer, I suddenly opened the door of my mother's room and saw her on her knees beside her chair and heard her speak my name in prayer.

I quickly and quietly withdrew with a feeling of awe and reverence in my heart. Soon I went away from home to school, then to college, then into life's sterner duties. But I never forgot that one glimpse of my mother at prayer nor the one word—my own name—which I heard her utter. Well did I know that what I had seen that day was but a glimpse of what was going on every day in that sacred closet of prayer, and the consciousness strengthened me a thousand times in duty, in danger and in struggle. When death came at last and sealed those lips, the sorest sense of loss I felt was the knowledge that no more would my mother be praying for me.

THE LAP OF LUXURY.

"What is meant by the lap of luxury?" asked a teacher of a class of little girls.

"Well, what is it, dear?" inquired the teacher kindly.

"It's when the cat steals into the ladder and licks the cream off the milk," responded the little one.

And the teacher on reflection wasn't quite sure that her pupil was wrong.

BOAT BURNS; MANY PERISHED.

City of Pittsburg Caught Fire, and Was Destroyed on the Ohio River, Near Cairo, Illinois.

PROBABLY 60 DEAD, THE CAPTAIN ADMITS.

Among Those Missing is a Ten-Year-Old Son of Mr. and Mrs. Archie M. Allen, of Pittsburg, the Parents Being Among Those Saved—Among the Injured Were Mrs. S. R. Leach, of Bridgeport, O., and Mrs. Ellen Fenmore, of Arbuckle, W. Va., Who Were Burned—Panic Among the Passengers—Fire Broke Out While Many on Board Were Asleep.

Cairo, Ills. April 21.—One of the worst disasters in the history of Ohio river navigation occurred shortly after 4 o'clock Sunday morning, near Ogden's landing, near this city. While almost all aboard were sleeping the steamer City of Pittsburg was discovered to be on fire and in a few moments was burned to the water's edge. The loss of over \$80,000 on the steamer does not include the cargo, both being a total loss. The latest estimates last night were that 250 persons were aboard and that not more than half of them were saved. Many of the latter were burned or injured. As the register of the steamer was burned, no list could be given, either of the victims or of the survivors, and in the confusion it was impossible to get complete lists. Captain Phillips admitted that the death list may reach 60.

Two boats and all available craft from this city went to the scene for relief. Efforts were made to catch the New South, of the same line, at Paducah, and have her steam back for relief, but the steamer had passed Paducah, upward bound, before the telegram was received.

Most of Passengers in Bed.

Most of the passengers were still in bed when Second Clerk Oliver Phillips gave the alarm. The engineers at once started all the pumping engines, while the crew brought all the hose into play. Amid the streams of water on all sides, the flames from the lower deck and dense clouds of smoke, the passengers rushed from their staterooms and a frightful panic ensued. The appeals of the officers and crew could not appease the terror-stricken crowds that interfered with those throwing water on the flames as well as with those working with the lifeboats. Few could adjust life preservers or do anything for themselves.

The smoke was stifling. Great clouds floated through the blazing steamer, choking the passengers and adding to the terror. Children cried pitifully, begging that they be saved.

Lifeboats were manned and every effort was made to save the passengers from the floating furnace of flames.

Seen from the river banks, the sparks from the burning craft and the dense clouds of smoke, tinged with flames, made a most impressive and weird spectacle.

Boats Did Rescue Work.

Boats were sent from shore to help in the work of rescue. Boats, laden to their limit with passengers in the scant attire they were to gather, were landed at the river banks. As fast as the boats could be emptied they returned to the ill-fated steamer, the rescuers losing no time from their work.

The burning steamer was quickly headed to the bank, but passengers were forced to jump from the stern, and trying to swim ashore through the swift current many were drowned. Many also perished in the flames. Only one yawl was saved, without scars, and the women were taken off. About 20 or 30 were taken off in the yawl. The rest were picked up out of the water.

Help, except from people living nearby, did not arrive until 2:30 o'clock Sunday afternoon, and na-

Child From Pittsburg Missing.

Among the missing are a child of Pilot Al Pritchard and Clay Breeze, his wife and son, and a son of Archie M. Allen, of Pittsburg.

Among the members of the crew missing are:

Joe Redding, Cincinnati, striker engineer.

Fred Jones, Newport, striker engineer.

Tom Smith, Memphis, striker pilot.

William Bollinger, Cincinnati, first steward.

Henry Thomas, colored, Cincinnati, second steward.

John Botts, Cincinnati, cook.

Tom Gilfoyle, Cincinnati, baker.

And the following members of the crew whose names are unknown:

First pantryman.

Three colored firemen.

Six cabin boys.

Two chambermaids.

Six freight deckhands.

Captain Phillips says 20 or 25 of the passengers are missing and the same number of the crew. Two women passengers were severely burned, but will recover. They are Mrs. S. R. Leach, of Bridgeport, O., burned about the hands, and Mrs. Ellen Fenmore, of Arbuckle, W. Va., severely burned about face.

Mrs. Fannie McCullom, of Leavenworth, Ind., lost three children.

Pat Burt, of Owensboro, Ky., wife and six children were all lost.

The body of a child, dressed in night clothes, was taken from the river at Mound City.

Among the first bodies recovered was that of Captain Wesley Doss, of Cincinnati.

The fire was discovered at 4:05 a. m. There were 70 passengers and 10, all told, in the crew. A partial list of those saved is as follows:

Partial List of Those Saved.

William Bollinger, steward, Cincinnati.

A little girl named Sweeney, of Owensboro, Ky.

L. L. Hunter, Lititz, Pa.

Two cooks and two chambermaids and most of the deckhands.

Fire Started in a Forward Hatch.

The fire started in the forward hatch larboard and burned fiercely, and when the steamer ran ashore escapes were made over the cabin railing. Very few passengers or members of the crew were aware of the fire until it was too late. The captain and clerk late last night claimed in all 80 persons have been accounted for, leaving 60 people lost or unaccounted for.

The steamer Maud Kilgore, Captain Cole, brought the survivors to this place at 6 p. m., and the several societies of the city rendered all assistance in the way of clothing, etc.

Cincinnati, April 21.—When the steamer City of Pittsburg left for Memphis she had 31 passengers and a crew of more than 60. The local officers of the packet company say that some of these passengers have since reached their destination and others had been taken aboard during

the past three days at points down the river. Some of the passengers were from Pittsburg and other up the river points. Even the names of the passengers who started from Cincinnati are not obtainable, as the only register kept was in the purser's office on the steamer. The Pittsburg was built at Marietta in 1899 and was valued at \$80,000. She was 300 feet long and 80 feet wide, and was owned by John M. Phillips and Al Brahm, of Pittsburgh, and Dana Scott, of Zanesville. Mrs. Phillips, wife of the commander of the steamer, and her son, remained here this trip. She received a telegram from her husband last night that he was not seriously hurt during the fire.

The Pittsburg's officers consisted of:

Officers of the Pittsburg.
John M. Phillips, commander.
Dana Scott, purser.
Oliver Phillips, of Pittsburg, clerk.
Ben Bridges, Louisville, third clerk.
Arch Schriber, Moscow, O., first mate.
Tom Whitney, New Albany, Ind., second mate.
Harry Doss, Cincinnati, pilot.

Clate Crawford, Ironton, O., engineer.
Harry Clossen, Zanesville, second engineer.
William Bollinger, Cincinnati, steward.

Fred Rentz, Newport, Ky., bartender.

Harvey Brown, Cincinnati, steersman.

The following are known to have boarded the City of Pittsburg at Cincinnati:

Archie M. Allen, of Pittsburg.

Mrs. Archie M. Allen.

Their 10-year-old son.

Wesley Doss, Cincinnati.

Joseph Craig, of Grand View, Ind., grain merchant.

H. Brunen, of Cloverport, Ky.

Mrs. Arch Schriber, of Moscow, O.

Mrs. Al Pritchard, of Memphis, Tenn.

Sarah Pritchard, 11, her daughter.

Ella Pritchard, 6, her daughter.

Just prior to the boat's departure she underwent her annual inspection by United States Inspectors Dameron and Fearn, and was granted first-class papers.

CAPITAL ABOUT \$200,000,000.

This Sum About Represents the Prop-

Bill, if Passed, Would Effect It.

Philadelphia, April 21.—Clement A. Griscom, president of the International Navigation company, one of the five trans-Atlantic steamship companies which have been merged under the direction of J. P. Morgan, yesterday talked freely concerning the consolidation, its purposes and probable effects. Mr. Griscom said he was unable to speak definitely regarding the financial plan, as that was a matter for the consideration of Mr. Morgan and his partners, which will perhaps be decided upon within the next two weeks. In any event, President Griscom said, the consolidated companies would probably be in operation under the new conditions within a few months.

So far as the negotiations regarding the merger are concerned, they have been completed. Agreements for a controlling interest in each of the various lines have been secured and all that now remains to be accomplished is the organization of the holdings of the parent company. This matter is now in the hands of J. P. Morgan & Co. and their lawyers.

May Be Made Parent Company.
It is possible, though by no means certain, that the International Navigation company, whose chartered powers are very broad, will be made the parent company. The question now under consideration is the desirability of this plan as against the organization of an entirely new company to control the operations of the combined steamship lines. The published statements as to the financial basis of the combine, Mr. Griscom said, were entirely speculative, as that detail had not as yet been completed.

Mr. Griscom further said in part: "The capitalization of the consolidated companies will be in the neighborhood of \$200,000,000, which sum about represents the property absorbed. Working capital,

Work While Life Lasts

By HENRY CLEWS, Wall Street Banker and Broker

HEN should a wealthy man retire? I THINK IT BEST FOR A MAN TO RETAIN AN INTEREST IN HIS BUSINESS, IRRESPECTIVE OF AGE OR THE AMOUNT OF MONEY ACCUMULATED, AS LONG AS HIS VITALITY HOLDS OUT. It will certainly hold out the longer, in my opinion, if a man retains an interest in the work he has been brought up to do. By being in business a man is kept alert, and alertness is the zest of life. A cheerful occupation keeps a man's habits good, and health is improved thereby.

NOTHING IN MY OPINION WILL KILL A MAN QUICKER THAN TO HAVE NO FIXED INTERESTS IN LIFE. IT IS DANGEROUS TO HAVE NOTHING BUT TIME ON YOUR HANDS.

or course, will be provided, and the profits and reserve fund should enable us to build the necessary additions to our fleets. While control of the company will be held in this country, it will be a strictly international organization, fostering the various companies included in the consolidation, preserving their autonomy and respecting their national and local surroundings.

Better and Cheaper Service.

"The object of the combination is to try to give better trans-Atlantic service at decreased cost. Heretofore the trade has been extravagantly conducted and we propose to operate more intelligently in the future. We expect in time to inaugurate a system of daily departures from New York, an innovation that is a real necessity.

"There is no political significance in this deal. The negotiations have covered a period of many years and I was interested in the subject as far back as 1884. The passage of the ship subsidy bill would have but one effect, so far as the new enterprise is concerned. It would enable us to sail ships now building and hereafter built under the American flag on an equal footing with the ships of other countries. The published statements that the ship subsidy bill would enable us to sail our foreign vessels under the Stars and Stripes are incorrect as the bill specifically states that only American built ships can benefit by its provisions, and, furthermore, such a course, if possible, is contrary to the whole scheme.

Would Benefit Four Vessels.

"We have existing only four small vessels that might benefit by the passage of this bill, and they are on the Pacific. While in the coastwise trade, in which they are now engaged, the provisions of the bill would not apply to them. After our present small contract expires the four American trans-Atlantic liners of the International Navigation company are eligible for a new contract, either under the present postal law or under any new act that might be passed by congress."

state have been unsuccessful, will make a final effort to secure the latter's attendance at a meeting called for the present week in this city. If no recognition or satisfaction shall be obtained at this meeting it is said a general strike will be the result among the thousands of mine workers along the Chesapeake and Ohio and Norfolk and Western and the Baltimore and Ohio railroads.

MURDERED BY HIGHWAYMEN.

Two Negroes Shot and Killed Alexander McNaught Near Greensburg, Pa., April 21.—Alexander McNaught, 22 years old, was shot and almost instantly killed by two negro highwaymen on the Pennsylvania railroad near the Hempfield slope, east of here, at 2:30 o'clock Saturday morning.

Frank McQuillen, a companion, received a bullet wound of a rather serious nature in the thigh.

Two negroes, Edward Hill and Joseph Smith, were arrested at the Jamison works, four miles from here.

On being brought to jail here they were jeosted by a crowd that talked lynching, but were not hurt. They positively deny any participation in the murder and claim that they can easily establish an alibi. They allege that they were at Altoona Friday night and arrived at Jamison at 8 o'clock Saturday morning. They claim to live at Harrisburg. Charles McQuillen, the young man who was robbed of money and watch, came to the jail Saturday night, but failed to identify the prisoners.

D. W. Hethenthal, who followed the footprints of the murderers from the scene of the killing early Saturday morning to Jamison, where the strange negroes were captured, made a critical examination of the shoes of Hill and Smith, but declared that they did not fit the impressions made on the road.

A Sure Authority.

A youngster, disputing with his brother, exclaimed:

"Tis true, for father says so, and if father says so it is so, even if it ain't."

Alleged Slayers Held For Court.

Pittsburg, April 21.—Mrs. Nellie McWilliams, John McWilliams and William J. Byers had a hearing before Alderman J. V. McMasters Saturday on a charge of having murdered August J. Layton on June 10. All three were held for court, but as no evidence was directly against McWilliams he may later be released on bail.

Could Fill the Paper With Them.

This paper might be filled with items like the following and every one is the absolute truth: I had rheumatism for years and tried almost everything, but got no permanent relief until I used Chamberlain's Pain Balm, three bottle of which cured me. It is the best medicine I ever used.—Philip E. Rhoads, Penville, Mo. Pain Balm is for sale by Alvin H. Bulger.

Wintering in Colorado And Utah.

The climate of Colorado and Utah has long been world famous, but it is only within recent years that attention has been given to the delightful winter climate of these states. Today physicians all over the United States send their patients to Colorado and Utah to escape the rigors of eastern winters and to benefit by her invigorating atmosphere and health-giving sunshine.

It is not necessary to add an elaborate argument—the conclusion is self-evident and inevitable. The winter climate of Colorado and Utah on the whole presents advantages for the invalid and the pleasure-seeker that cannot fail to command attention.

An erroneous impression prevails that because the Rocky mountains have a high elevation the mercury in the thermometer drops down below zero in the winter season and stops there, and that the snow mounts up with the altitude. The fact is that the average precipitation of moisture in the lowlands of the mountain region during the entire year is only 14.15 inches. With such average precipitation there is practically no danger of snow blockades on the railroads, save at a few points exposed to drifts and these points have been amply protected. This is especially true of the lines of the Denver & Rio Grande and the Rio Grande Western between Denver and Ogden at all seasons of the year. Facts speak for themselves, and the fact is that travel over "The Scenic Line of the World" has gone on with less interruption from snow blockades during the last ten winters than it has upon the majority of railroads in other localities which are popularly supposed to be more free from such delays than the mountain systems. HOME AFFAIRS.**Brief Notes of a Personal Nature and of Matters About Town.**

A Daughter Born—A little daughter arrived at the home of Edward Roe and wife on Saturday.

Sailed for England—Barbara Bolton, the East Liverpool insane woman whom the government ordered sent back to England, sailed from New York last week.

Free Public Lecture—"The Present Condition of Human Life" is the subject of a free public lecture to be delivered in the Baptist chapel, Fifth street, on Thursday evening, by Dr. Mary F. Newgeon Corney, of New York.

C. A. Smith Is Better—W. L. Smith, of this city, returned from Pittsburgh Saturday evening, where he spent several hours with his brother, C. A. Smith, who has been ill for a week at his home on Stanton avenue. Mr. Smith states that his brother is rapidly improving and if nothing develops in the meantime he will be able to come to this city not later than Thursday.

A PLEASANT SUNDAY

Made Business Brist on Both the Street Railway Lines.

With the advent of spring at least 1,000 persons visited Rock Springs yesterday afternoon and last evening.

During the afternoon the East Liverpool & Rock Springs Railway company operated four summer cars, and each trip to the park was well patronized.

There was nothing special doing at the park, although the visitors were given an opportunity to see what improvements are being made.

Travel on the East Liverpool street railway was also heavy, and it seemed that persons who intended to take a trip over this line all desired to ride on the new cars. Lowering the windows of these cars the passengers had a breeze equal to that in the regular summer cars and it was a pleasure to ride. It may be that a concert will be given at the park next Sunday if the weather is favorable, but the matter has not been definitely decided.

PRESBYTERY MEETING

Members of the Presbyterian Body Meet Tonight in the First Church.

The spring meeting of the Steubenville presbytery of the Presbyterian church will meet in this city this evening at 8:30 o'clock and will close tomorrow evening. The meeting tonight will be opened with the usual devotional exercises, followed by a sermon by Rev. Mr. Flinley, retiring moderator. Following this a new moderator will be elected.

Tonight will be occupied by the business session of the meeting, and in the evening the session will close by an address upon the subject, "The World as Seen By a World Traveler," by Dr. John Henry Barrows, president of Oberlin college.
